WASHINGTON STATE
ECONOMIC AND REVENUE FORECAST COUNCIL

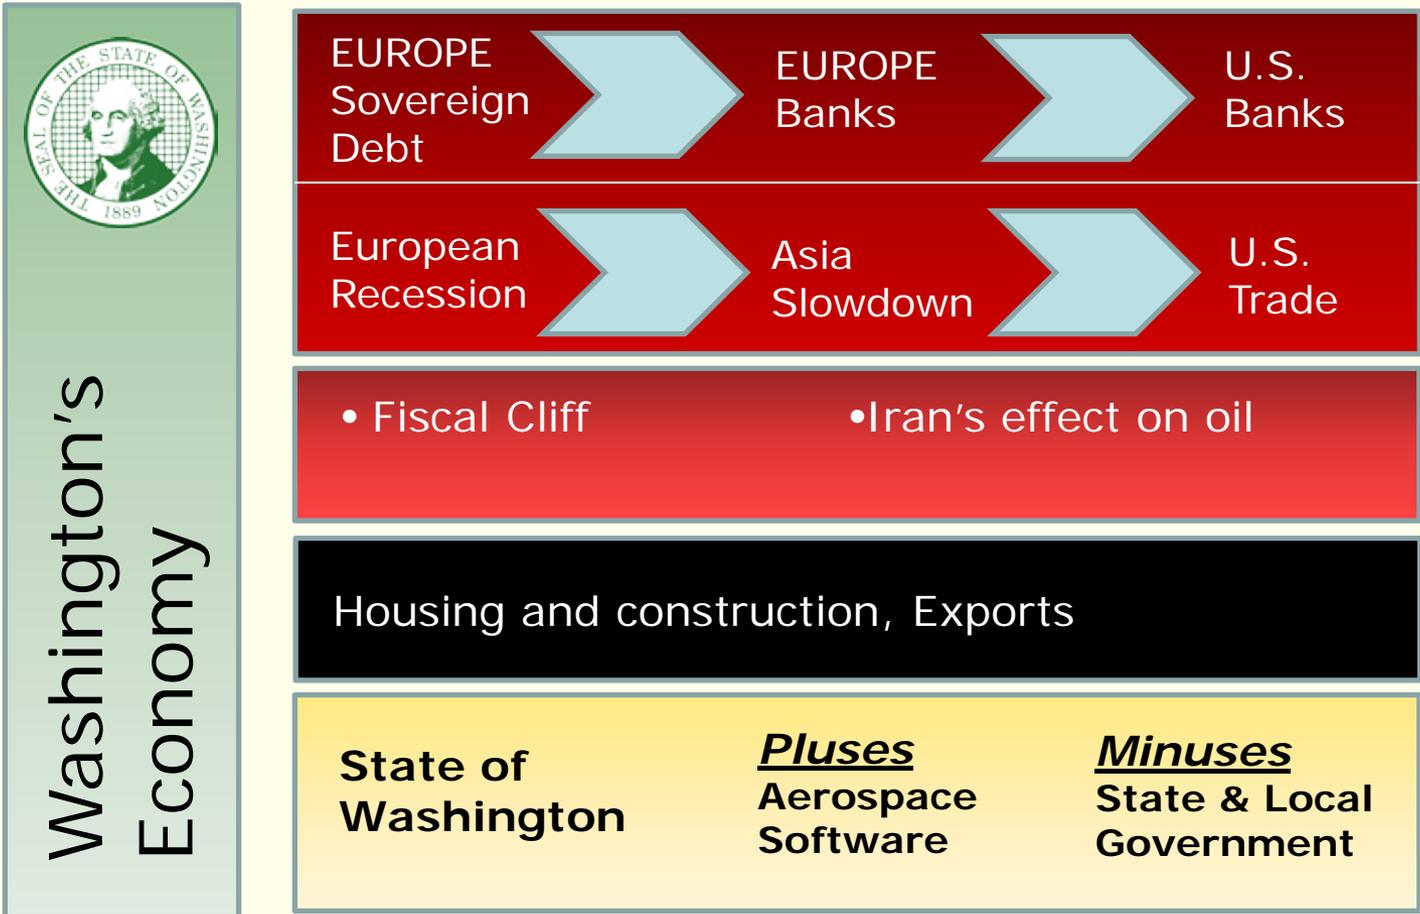

Summary

- The updated economic forecast is marginally weaker than the September forecast, with slightly lower U.S. GDP and Washington personal income
- Uncertainty in the baseline remains very high, mostly due to on-going concerns about Europe, China, and the “fiscal cliff”
- Given the uncertainty around implementation, no new revenue is associated with I-502 at this time
- This forecast increases expected GF–S revenue by \$8 million in the current biennium but decreases it by \$88 million in the 2013-15 biennium

Conclusion

- The forecast for the 2011-13 Biennium is \$8 million higher than in September
- The forecast for the 2013-15 Biennium is \$88 million lower than in September
- Revenues are expected to grow 8.0% between the 2009-11 and 2011-13 biennium and 6.8% between the 2011-13 and 2013-15 biennium
- As in September, we are forecasting slow economic and job growth for both the national and state economies
- The level of uncertainty in the baseline remains extremely high, and downside risks outweigh upside risks
