Goals for Business Plan and Migration Schedule Update

- There will be one data center for all agency servers.
- Migrate agencies as soon as practicable, placing servers in the most cost-effective and suitable environment.
- Design large scale, reliable services that meet agency needs and are cost-effective.
- Maximize the use of the State Data Center (SDC) facility to obtain the best return for taxpayers.
- Maximize the value of IT transformation.
- Achieve a reduction in the cost of IT services across the enterprise.
- Operate the SDC in a transparent manner and remain accountable to stakeholders.
