### 3220 Noncash Revenues

This GL code is used to record all noncash revenues (e.g., amortization of premiums and/or discounts on investments; changes in the fair value of investments). This code is not to be used for revenue that will be received in cash in a future period.

### 3221 Other Financing Sources

Generally, an offsetting entry to GL Code 6514 is to be made. This code is used only in governmental funds. In most cases, GL Code 3221 should equal GL Code 6514.

### 3225 Revenue Adjustments/Eliminations (GAAP)

For example, when recording the sale of a capital asset in an allotted enterprise fund, it is necessary to debit cash and accumulated depreciation and credit the capital asset, then debit or credit, as appropriate, GL Code 3213. For budgetary reporting, it is also necessary to debit this GL code and credit GL Code 3210 for the cash received.

### 4325 Beginning Treasury Cash Balance – Agency

This is a system-generated GL code that represents the portion of the prior biennium's June 30 ending treasury cash balance for an account that pertains to a particular reporting state agency. The balance of this GL code is included in GL Code 4320, "Beginning Treasury Cash Balance," on the administering agency's general ledger. A system generated offsetting credit to GL Code 4325 is also provided on the administering agency's general ledger to avoid overstating beginning cash in the fund. Therefore, at the fund level all amounts in GL Code 4325 are to net out to a zero balance. All corrections to GL Code 4325 are to be made by the fund's administering agency to adjust the cash balances of both the administering and/or other agencies. GL Code 4325 does not apply to local cash in agency funds outside the State Treasury.
