95.10 Federal Assistance Reporting Policies and Procedures

95.10.10

June 1, 2007

Purpose and scope of the policies

95.10.10.a

The Federal Single Audit Act of 1984, most recently amended in 1996, establishes uniform requirements for audits of federal assistance and promotes the efficient and effective use of audit resources. In addition, the federal Office of Management and Budget (OMB) has published OMB Circular A-133 (revised June 27, 2003) further delineating requirements for single audits of federal assistance. Under the provisions of the Act and Circular A-133, Washington has exercised the option to obtain a statewide Single Audit to satisfy the single audit requirements for federal assistance received and administered by agencies and institutions of the State.

As part of this single audit process, the Office of Financial Management (OFM) coordinates with individual state agencies and institutions in compiling the necessary year end federal financial information required to complete the Circular A-133 mandated annual "Data Collection Form" and "Reporting Package." The reporting package consists of a statewide Schedule of Expenditures of Federal Awards; the statewide Financial Statements; a Summary Schedule of Prior Audit Findings and a Summary Corrective Action Plan for Findings and Questioned Costs, all compiled by OFM, and specified reports compiled by the Auditor. OFM uses the federal disclosure forms in Section 95.20 to collect information on the expenditure of awards of federal assistance by individual state agencies and institutions for the state fiscal year.

95.10.10.b

For the purposes of this Chapter, federal financial assistance is defined as all assistance received, directly or indirectly, from a federal agency in the form of grants, contracts, cooperative agreements, donated surplus property, donated inventories, loans, loan guarantees, property, interest subsidies, insurance, direct appropriations or other assistance. It shall not include reimbursements for vendor services provided federal agencies or reimbursements for services rendered to individuals as described in OMB Circular A-133, § ____.205(h) and § ____.205(i).

95.10.20 Applicability

June 1, 2007

Chapter 95 is applicable and binding on all agencies of the state of Washington receiving, administering or expending federal assistance, unless otherwise exempted by federal or state law. The Budget and Accounting Act (RCW 43.88.020) defines the term “Agency” to mean and include “Every state office, officer, each institution, whether educational, correctional or other, and every department, division, board and commission, except as otherwise provided...”

Agencies may request a waiver from complying with specific requirements of this chapter. Refer to Subsection 1.10.40 for information on how to request a waiver.

95.10.30 Federal revenues

June 1, 2007

95.10.30.a

Federal revenues are recorded in the Agency Financial Reporting System (AFRS) as follows:

- Revenue Source Codes 0301 through 0354 and 0356 through 0399 identify reportable direct federal assistance activity.
- Revenue Source Code 0546 identifies federal assistance received from other state and local governments or private entities.
- Revenue Source Code 0448 identifies indirect cost recoveries under the statewide central service cost allocation plan.
- Revenue Source Code 0355 identifies federal revenue that is not classified as federal assistance.
- Revenue Source Code 03DS identifies the distribution of certain federal revenues by the State Treasurer.

With the exception of Revenue Source Code 0355, all federal revenues (Revenue Source Codes 0301-0399 plus 0448 and 0546) are to be reported on the federal disclosure forms.

Revenue Source Code 0355 – Federal Revenue – Non-Assistance includes receipts from a federal agency when a state agency provides vendor services and the related expenditures are charged to a federal expenditure authority code, or other receipts from federal agencies that are not classified as federal assistance, even though the related expenditures are charged to federal expenditure authority codes. Revenue Source Code 0355 facilitates the matching of federal revenues and expenditures for budget purposes.

Federal Assistance Reporting

As for **Revenue Source Code 03DS – Federal Revenue Distributions**, distributions of reportable federal revenues need to be reported as expenditures of those program revenues on the applicable federal disclosure form. Revenue Source Code 03DS distributions applicable to revenues coded to Revenue Source Code 0355 should not be reported.

- 95.10.30.b When one state agency subgrants federal assistance to another state agency, the grantee agency records and reports the federal revenue and expenditure. The subgrantee records payment as interagency reimbursement (negative object S expenditure). When full payment has been received by the subgrantee state agency program expenditures should be net zero with no federal assistance revenue or expenditure reporting required.
- 95.10.30.c For federal revenue reporting purposes, if adjustments to federal revenues or expenditures are posted to AFRS subsequent to closure of federal disclosure forms, the agency is required to correct the applicable disclosure forms. Contact your assigned Accounting Consultant to have the disclosure forms reopened if corrections are needed.

General instructions

- 95.20.06.a Each state agency or institution that expends awards of federal assistance during a state fiscal year must complete federal disclosure forms. To meet federal reporting requirements, agencies must report all federal assistance received, disbursed, and/or on hand and must complete the Federal Assistance Certification. Both the Agency Head and Chief Financial Officer are to certify, to the best of their knowledge, that the agency complied with federal assistance requirements and that the information reported by the agency is complete and accurate.
- Agencies are **required** to complete three federal disclosure forms: Federal Financial Assistance – Direct, Federal Identification Numbers, and Federal Assistance Certification. The rest of the disclosure forms may or may not apply to your agency. If there is AFRS data pre-filled in a disclosure form, your agency is required to complete the form. Specify on the lead sheet if a form is completed or not applicable for your agency.
- 95.20.06.b All reporting of financial information is to be to the **whole dollar**. Do not enter pennies, decimal points, dollar signs, etc. Refer to the “Tips” screen in the Disclosure Form application for more helpful information.
- 95.20.06.c All financial information reported is to be reconciled to the Agency Financial Reporting System (AFRS). Reports in Enterprise Reporting (ER) are available to assist in the reconciliation process. Agencies are encouraged to use these reports throughout the year to monitor reconciliation status.
- 95.20.06.d The prescribed cluster designation of CFDA numbers is mandated by the federal government in Part 5 of the latest A-133 *Compliance Supplement*. Cluster assignment is table driven by CFDA number in the Disclosure Forms application. With the exception of a designed limited capability to override the default program cluster number for Research and Development (R & D), **DO NOT** attempt to change CFDA database information on any of the reporting forms.
- 95.20.06.e If you have a question regarding CFDA numbers allowed on the forms or you require a change to an existing number or have a question regarding federal assistance reporting in general, contact Andrea Brown, OFM Accounting Division, at (360) 664-7773.

95.20.06.f To complete the federal disclosure forms, access the Disclosure Forms application at: <http://www.ofm.wa.gov/systems/default.asp>.

Use an authorized User ID and Password, select the “Federal Forms” tab.

In addition to entering relevant federal financial information into the Disclosure Forms application, each agency is to submit to OFM an original signed copy of the Federal Assistance Certification form by December 7, 2007.

Federal Financial Assistance – Direct

Use this form to report all federal financial assistance received or expected to be received directly from a federal agency. This would encompass the majority of the federal financial assistance received by the state of Washington. In addition, the form is used to reconcile reported amounts to financial information recorded in the State Agency Financial Reporting System (AFRS), or other applicable accounting systems.

Financial information is summarized by federal catalog number. List both accrued and received federal revenue (Revenue Source Codes 0301 through 0354 and 0356 through 0399) and the related expenditures for federal assistance. Agencies and institutions are also required to report that portion of expenditures (actual and accrued) passed through to subrecipients or subgrantees.

Instructions and Definitions:**Column
Heading****Instructions**CFDA
Number

Enter five-digit code for federal assistance program. This number is supposed to be listed in your grant award document. It can also be found in the Federal Domestic Assistance Catalog or in the CFDA number database in the state of Washington electronic federal assistance reporting module. In the absence of a CFDA program number where the agency has a federal award number, the last three digits of the CFDA number should be zeros (XX.000) and the award number reported. In the absence of both a CFDA program number and a federal award number, the last three digits of the CFDA number should be nines (XX.999). Based on the CFDA# chosen from the drop down box, the following fields are automatically filled in: federal funding agency, major subdivision, program title, and cluster.

Federal
Funding
Agency

Name of the federal agency granting or awarding the federal financial assistance. Entry of the CFDA number will automatically enter name of the federal funding agency. This field is automatically filled in based on the CFDA # entered.

Major
Subdivision

Required additional information only for all federal expenditures reported under the R&D program cluster. Name of the organizational unit, within the federal agency, granting or awarding the federal financial assistance. This information can be found in the Federal Domestic Assistance Catalog. The name of the major subdivision of the federal funding agency is

Federal Assistance Reporting

automatically filled in based on the CFDA# entered, except for XX.000 and XX.999 codes. State agencies or institutions are required to enter the major subdivision name for XX.000 and XX.999 program information in R & D circumstances.

Program Title	Title of the federal program providing the federal financial assistance as stated in the Federal Domestic Assistance Catalog. The correct federal program title is automatically filled in based on the CFDA# entered. Entry of the CFDA number XX.000 automatically generates, “Fed Agy Contract Number Only Provided” in the Federal Program Title field and further requires entry of an award contract number in the appropriate box. Entry of CFDA number XX.999 automatically generates, “Fed Agy NONE” in the Federal Program Title field.
Cluster	Cluster numbers are cross-referenced to CFDA numbers in the disclosure form application. The correct cluster number is automatically filled in based on the CFDA# entered. However, CFDA program numbers that cross-reference to the Research and Development Cluster (02) should be individually reviewed. If your federal award document does not specify R&D, it may be appropriate and beneficial to change the cluster to 01- Programs Not Clustered. (Refer to Subsection 95.10.40 for cluster designations and definitions.)
Award Contract Number	The award document number assigned by a federal awarding agency or a pass-through entity passing federal assistance resources to a state agency or institution. In the absence of a valid CFDA number (non-vendor situation) agencies are to use a CFDA number consisting of the first two digits indicating federal agency and three zeroes in the program field. When this convention is used an award contract number must be provided. The award contract number is limited to a maximum of 22 characters.
Revenue Amount	Amount of federal dollars received (or properly accrued) in the federal assistance program for the state fiscal year. Includes all revenue in Revenue Sources 0301-0354 and 0356-0399. 03DS distributions by the State Treasurer related to 0355 revenue are not federal assistance and should not be reported. Amount should be recorded to the <u>dollar</u> .

Federal Assistance Reporting

Expenditure Amount Amount of federal dollars expended (or properly accrued) in the federal assistance program for the state fiscal year. Includes both direct expenditures and agency indirect expenditures (as a result of federally approved indirect rate cost pool or cost allocation plan). Amount should be recorded to the **dollar**.

Pass Through Amount That portion of federal award expenditures passed through to subrecipients (or properly accrued to be passed through). Does not include amounts passed through:

- (a) To other agencies and institutions of the state of Washington.
- (b) As payments for vendor services provided.
- (c) As reimbursement for services rendered to individuals as described in OMB Circular A-133, §____.205(h) (*Medicare*) and §____.205(i) (*Medicaid*).

Amount must be recorded to the dollar.

Required conversion of CFDA number for reporting purposes

There are two situations where the federal agency number used in the CFDA catalog does not agree with the federal agency number accepted by the federal single audit clearinghouse.

Situation #1 - The CFDA catalog lists all federal assistance programs of the National Foundation on the Arts and Humanities under one federal agency code 45. The clearinghouse does not recognize that number and requires reporting under three agency numbers: 05-National Endowment for the Arts; 06-National Endowment for the Humanities and 03-Institute for Museum Services

Situation #2 - The CFDA catalog lists the Executive Office of the President as federal agency 95. The federal clearinghouse does not recognize that number. The program in question is the High Intensity Drug Trafficking Program. The federal clearinghouse has clarified that the program is to be reported under federal agency code 07 Office of National Drug Control Policy.

To ensure that CFDA numbers used for the Schedule of Expenditures of Federal Awards (SEFA) agree with CFDA numbers reported to the federal single audit clearinghouse the following conversions must be made in the reporting process:

Federal Statewide Central Service Cost Allocation Plan (SWCAP) Recoveries

Use this form for reporting and reconciling federal indirect cost revenue recovered to the state General Fund via the Statewide Central Service Cost Allocation Plan (SWCAP) process. **Revenue Source Code 0448 Statewide Indirect Cost Recoveries** is used to record such recovery. The recording of Revenue Source Code 0448 creates a circumstance in which a state agency has a right to receive or has received federal revenue without the recording of an associated federal expenditure within the agency. Report federal Revenue Source Code 0448 under the federal program (CFDA number) that drew, claimed, or charged an indirect cost that produced the central service cost recovery. Following is the definition for State Indirect Cost Recoveries:

State Indirect Cost Recoveries: That portion of the state's costs incurred to support central operations and properly shared as a federal program cost. An agency has no direct expenditure for these costs, but is allocated a cost share through the annual statewide cost allocation plan. An agency draws federal revenue, when possible, to cover its share of these costs based on its federal program activity.

95.20.40 Federal Nonfinancial Assistance

June 1, 2007

Washington receives federal nonfinancial assistance in the form of donated inventories (for example food commodities and disease immunization supplies) and surplus property. Use the Federal Nonfinancial Assistance form to report federal nonfinancial assistance received directly from a federal agency or indirectly from a custodial state agency.

State agencies with federal nonfinancial programs use this form to report the expenditure or usage of this assistance by federal catalog number for the fiscal year ending June 30. Known nonfinancial assistance programs are prelisted for convenience. Agencies can add other nonfinancial assistance program catalog numbers and activity as appropriate.

The reconciliation capability provided on this form is limited to the listed federal programs. Those agencies not maintaining separate food commodity inventories per instructions from the Office of Superintendent of Public Instruction (OSPI) are to enter annual dollar amounts provided by OSPI.

Custodial state agencies, such as the Department of General Administration, that transmit portions of their donated inventories to other state agencies or institutions for eventual use, should not record an expenditure upon transmission (refer to Subsection 85.56.40.d).

**Federal Assistance Received from Nonfederal Sources
(Pass-Through)**

All state agencies are required to separately record and report all federal financial assistance received from entities other than federal or Washington State awarding agencies. Agencies account for this indirect federal assistance using Revenue Source Code 0546 "Federal Revenue - Pass-Through." Generally, the associated expenditures are accounted for as local or private expenditure authority charges.

This form provides a means for entering federal assistance received from nonfederal entities, and reconciling the entered amount to revenue entered in AFRS.

Agencies are to list, in federal catalog number order, **by pass-through entity name and grant agreement or award contract control number**, all federal financial assistance and associated expenditures from other than federal and Washington State agency grantors (Revenue Source Code 0546). The grant agreement or award contract control number is limited to a **maximum of 22 characters**.

Cluster information is table driven and will be recorded automatically. If Cluster 02 appears, agencies are encouraged to review their grant and contract information to confirm the presence of research and development activity. If confirmation cannot be made, agencies are advised to change the cluster designation to 01 – Programs Not Clustered.

If a federal CFDA program number cannot be determined, use XX.000 when an agreement or award contract control number is provided and XX.999 when no agreement or award contract control number has been provided or agreed to. Instances of XX.999 in this form should be infrequent.

Federal Identification Numbers

Agencies and institutions are required to list all federal, nine-digit **Employer Identification Numbers (EINs)** covered by the state of Washington Single Audit. OFM interprets the term covered to mean all EINs related to CFDA program expenditures for which single audit requirements are satisfied by the state of Washington Single Audit.

This includes EINs for state agencies or institutions as well as any of their sub or component units that have expenditures included in the state single audit. This also includes the EINs for state agencies or institutions which another state agency or institution contracts with on an interagency reimbursement basis (subgrantee status).

It does not include EINs for subgrantees, vendors, or client service providers. It also does not include EINs for nonfederal entities passing federal resources through to state agencies or institutions.

Agencies and institutions are also required to provide a federal universal grant identifier number for their agency. This number, commonly referred to as a **DUNS (Data Universal Numbering System) number**, is available from Dun and Bradstreet. It is required on all federal grant applications and federal expenditure reporting. Agencies that have more than one DUNS number must designate one number as the master DUNS number for federal assistance purposes. Only the Community and Technical College System will report multiple numbers (one for each institution).

Both EINs and DUNS numbers are reported to the federal government in a statewide listing with no attempt made to correlate individual numbers with specific CFDA programs.

Use this form to enter the IRS Employer Identification Number(s) [EIN]. Report as many EINs as appear in the total federal assistance activity for the year. Some agencies may have more than one EIN or involve other state agencies that have their own EIN(s), in their federal assistance. **Do not report** EINs for other than state agencies.

Use this form to also enter the agency's DUNS number. With the exception of the Community and Technical College System, each state agency should report only one DUNS number. Agencies are not required to collect or report the DUNS numbers for their subgrantees, vendors or client service providers.
