

**ADDENDUM 2**  
**Issued May 14, 2019**  
**To**  
**State of Washington**  
**Office of Financial Management**  
**One Washington**  
**ERP Expert Advisor Services**  
**OFM 19-400**

Based on questions received and other feedback, the following modifications (beyond clarifications contained in Addendum 1) are made to the ERP Expert Advisor Services Competitive Procurement:

1. **On Page 5 Section 1, Introduction** third paragraph is replaced and superseded as follows:

The ERP Expert Advisor Services firm must be an independent consulting firm that does not sell hardware or software related to the ERP market space or Accounting / HCM solutions, and does not represent ERP vendors in any way. OFM's intent is to engage an independent firm that will provide ERP knowledge and expertise to ensure that Washington's best interests are represented in planning for, procurement of, and implementation of an ERP SaaS solution.

2. **Appendix G** was mislabeled in the header as Appendix H (but correctly labeled in the footer). There is no Appendix H for this procurement.
