

**STATE OF WASHINGTON  
OFFICE OF FINANCIAL MANAGEMENT  
WEBS SOLE SOURCE NOTIFICATION**

The Office of Financial Management (OFM) contemplates awarding a sole source contract to XeroOne Systems LLC. XeroOne Systems will provide technical data modeling services which will support Washington's Early Learning P20W data warehouse.

During the next six (6) months of this project, technical assistance is required to expand the data architecture for the current P20W data warehouse to include information from early learning sources, include data marts with metrics and measures derived from kindergarten through third grade educational records associated with early learning participants.

XeroOne's experience began as the original contractor and data steward associated with the P20W longitudinal research database design.

The anticipated period of performance is January 7, 2019 through September 30, 2019. The dollar value is estimated at \$220,500.

This is not an invitation to bid. However, vendors contemplating the above requirements may submit capability statements, up to three pages, detailing their ability to meet the state's requirements within five (5) calendar days of this announcement. In the absence of other qualified sources, it is the state's intent to make a sole source award of the contract.
