4/28/2025	6/16/2025	71058300	Fiscal Analyst	143J	Fiscal Analyst 2	9741 (central service split funding model)	This position is critical to the payroll process and processes a high work volume of critical payroll functions for over 600 of nearly 1,900 HCA employees. Aside from experiencing high turnover on that team which requires constant training and coaching of new staff members, divvying up workloads to other staff may result in unachievable workloads for other team members, creates the potential for errors and may result in incorrect or late payments/compensation. Incorrectly processed payrolls can create risk for the agency as it may result in Union grievance filings or other litigation. This position is critical to the effective operations of the agency.
