50.30.20 Applicability

This part is applicable and binding on all agencies of the state of Washington administering or expending [federal assistance](#), unless otherwise exempted by federal law or appropriate federal authority. The Budget and Accounting Act ([RCW 43.88.020](#)) defines the term “Agency” to mean “Every state office, officer, each institution, whether educational, correctional, or other, and every department, division, board, and commission, except as otherwise provided...”

Agencies may request a waiver from complying with the state accounting or reporting requirements of this chapter. Refer to [Subsection 1.10.40](#) for information on how to request a waiver.

50.30.25 About the Single Audit Act requirements

[October 1, 2024](#)

~~June 1, 2022~~

In 1984, Congress passed the Single Audit Act, which required most governmental recipients of federal assistance (e.g., state and local governments) to have organization-wide [financial](#) and [compliance audits](#) on an annual basis.

Under the provisions of the Single Audit Act, as amended, the state of Washington has opted to obtain a statewide Single Audit to meet the basic federal audit requirements for all federal assistance awards administered or expended by [agencies](#) of the State.

Over the years, the federal Office of Management and Budget (OMB) issued several circulars to clarify administrative and audit requirements for various types of federal assistance recipients.

In 2013, the OMB issued the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards ([Uniform Guidance](#)) to clarify and streamline all existing federal guidance. **Effective December 26, 2014**, the Uniform Guidance became the authoritative set of rules and requirements for Federal awards that consolidates and supersedes guidance from earlier OMB circulars.

The Uniform Guidance contains major audit policy changes and audit requirements that target the risk of waste, fraud and abuse. The dollar threshold for the requirement of a Single Audit ~~was increased to~~ [is](#) \$750,000 or more in expenditures in an entity’s fiscal year.

State Administrative and Accounting Manual

[In April 2024, OMB issued updates to the Uniform Guidance including increasing the single audit threshold to \\$1,000,000. The effective date for the threshold change is for audits with periods beginning on or after October 1, 2024.](#)

50.30.50 Basis of accounting to use with federal assistance transactions

Jan. 1, 2015

State Administrative and Accounting Manual

The fund type of the account in which the federal assistance transactions are recorded determines the basis of accounting. Transactions for governmental fund type accounts are recorded using the modified accrual basis. Proprietary and fiduciary fund type accounts use the accrual basis. Refer to [Subsection 80.30.20](#).

50.30.60 When to recognize federal assistance revenue

Jan. 1, 2015

Federal financial assistance revenue should be recorded using appropriate revenue source codes. Refer to [Subsection 95.10.30](#).

50.30.60.a Governmental Fund Type Accounts

Federal financial assistance is recognized as revenue in governmental fund type accounts in the accounting period when all eligibility requirements are met and it becomes susceptible to accrual, that is, both measurable and available (modified accrual basis). In applying this definition, carefully review legal, contractual, and accounting policy requirements for guidance.

- Entitlements are recorded as revenue at the time of receipt or earlier if the accrual criteria are met. Entitlements are restricted more in form than in substance. Generally, only a failure on the part of the recipient to comply with prescribed regulations will cause a forfeiture of the resources.
- Generally, revenue associated with expenditure driven assistance programs is recognized when the related expenditure is made. If cost sharing or matching requirements exist, revenue recognition depends upon compliance with these requirements.

Revenue associated with federal assistance awards for which the eligibility requirements are met but which is not available, should be recorded as Unavailable Revenue, GL codes 5192 or 5292, and, subsequently, recorded as revenue when the availability criteria is met.

50.30.60.b Proprietary and Fiduciary Fund Type Accounts

Federal assistance revenue received in proprietary and fiduciary fund type accounts is recognized as revenue in the accounting period in which it is earned and becomes measurable (accrual basis).

50.30.60.c Unearned Revenue

Receipts from federal assistance awards received before the applicable revenue recognition criteria is met are to be recorded as Unearned Revenue, GL codes 5190 or 5290, and, subsequently, recorded as revenue when the revenue recognition criteria is met.

50.30.70 Use the Assistance Listing Number to record federal activity

June 1, 2022

50.30.70.a

State Administrative and Accounting Manual

Record federal assistance program revenues and expenditures by the unique [assistance listing number \(ALN\)](#) assigned to each federal financial assistance program. Agencies can utilize the ALN field (currently labeled CFDA) in AFRS to track expenditures by ALN. This may also be accomplished by maintaining a crosswalk of federal programs to ALNs.

50.30.70.b

When assistance listing numbers are not provided in the federal grant contract and cannot reasonably be determined by other means, agencies should:

- In the absence of an ALN where the agency has a federal award number, the last three digits of the ALN should be zeros preceded by the federal agency code (i.e. XX.000), and the federal award number must be provided.
- In the absence of both an ALN and a federal award number, the last three digits of the ALN should be nines preceded by the federal agency code (i.e. XX.999).

Note: The XX.000 and XX.999 ALNs are temporary numbers which will be assigned a different number (i.e. XX.UXX or XX.RD) after Phase 2 close. If these numbers are used, an OFM Statewide Accountant will contact you with further instructions. Refer to general disclosure form instructions in [Section 95.20.10.b](#).

50.30.80 Accounting for federal expenditures

June 1, 2022

50.30.80.a Federal Expenditure

In appropriated accounts, federal expenditures should be recorded using federal expenditure authority codes. Each agency is responsible for maintaining a system for tracking federal expenditures by the unique assistance listing number assigned to each federal financial assistance program, as listed in [SAM.gov](#).

50.30.80.b Cost of Administering Nonfinancial Programs

When allowable by the federal assistance program, administration costs for nonfinancial federal programs are recorded as federal revenues and expenditures under the applicable assistance listing number and reported at year-end on the Federal Financial Assistance - Direct form in OFM's electronic disclosure form reporting system.

50.30.80.c Donated Inventory Programs

Agencies of the state of Washington receive federal nonfinancial assistance in the form of [donated inventories](#) (primarily food commodities and immunization supplies). Such assistance may be received directly from a federal agency or indirectly from another state agency.

Donated inventories are recorded as [consumable inventories](#) offset by unearned revenue in accordance with [Subsection 85.56.40](#). Except as noted below, as donated inventories are consumed/distributed,

State Administrative and Accounting Manual

revenues and expenditures should be recognized using GL Codes 3225 “Revenue Adjustment/Elimination (GAAP)” and 6525 “Expenditure/Expense Adjustment/Elimination (GAAP).” State agencies must report the fair value of inventory consumed/distributed during the year on the Nonfinancial Assistance form in OFM’s electronic disclosure form reporting system.

Agencies distributing donated inventories to other governments, such as school districts, local health districts, and food banks, are to report the amount distributed in the pass through column on the Nonfinancial Assistance disclosure form.

Consistent with [Subsection 50.30.85](#), state agencies transferring federally provided inventories to other agencies are to report the revenue and expenditure. The agency actually using/distributing the commodities is to report the receipt of nonfinancial assistance as an expenditure recovery offsetting the associated nonfinancial expenditure/expense in its accounting records.

For food commodities, use the commodity list prepared by the Food and Nutrition Service of the U.S. Department of Agriculture to determine the fair value of the nonfinancial assistance.

50.30.80.d Federal Surplus Property

Do not record the value of federal surplus property received by a state agency or institution as revenue in the official state financial accounting records. Maintain the property in appropriate subsidiary ledgers for proper control of the assets. Report federal surplus property on the Nonfinancial Assistance form in OFM’s electronic disclosure form reporting system under the applicable assistance listing number. It is to be valued at acquisition value if it is capitalized. If it is not capitalized, it is to be valued at its fair value at the time of receipt or the assessed value provided by the federal agency donating the property. As part of the year-end reporting process, the Surplus Property Program within the Department of Enterprise Services will provide each agency with a summary report of the value of federal surplus property received by that agency during the reporting year.

50.30.85 Accounting for federal assistance activity between state agencies

Jan. 1, 2015

Unless directed otherwise by federal law, regulation or federal awarding agency directive, record federal revenue and expenditure/expense activity between state agencies or institutions such that the activity is not duplicated either for accounting or reporting purposes.

State agencies involved in inter-agency federal assistance activity should use the following accounting procedures:

1. The originating state agency records and reports the federal revenue and a corresponding expenditure/expense using Object N “Grants, Benefits, and Client Services” for the amount paid to the subrecipient agency.

State Administrative and Accounting Manual

2. The subrecipient state agency records program expenditures offset by an interagency reimbursement (Object S) for the moneys received from the original agency. This results in no net revenue or expenditure/expense to the subrecipient agency.

50.30.90 **Accounting for federal assistance received from another nonfederal entity, other than another Washington State agency/institution (pass-through)**

Jan. 1, 2015

Record federal assistance received indirectly from another state (e.g. Oregon), local government, or private entity as federal pass-through revenue (Revenue Source Code 0546). There are additional year-end financial reporting requirements specific to federal pass-through revenue and expenditures found in [Subsection 95.20.70](#).
