### 90.40.10

June 1, 2020

#### Introduction to state disclosure forms and lead sheet

Information collected in the state Disclosure Forms application facilitates the preparation of the state of Washington's *Comprehensive Annual Financial Report* (CAFR) by the Office of Financial Management (OFM).

The state Disclosure Forms application is an electronic way of capturing detail data for various aspects of an agency's activities. Each of the disclosure forms covers specific detail or other information that is not readily available from the data collected in AFRS.

All forms are completed online. The signed Financial Disclosure Certification form including attachments, as necessary, is to be emailed to [OFMAccounting@ofm.wa.gov](mailto:OFMAccounting@ofm.wa.gov).

- Certificates of Participation Disclosure – OST
- Internal Control Questionnaire Disclosure
- Miscellaneous Disclosure

If your agency cannot complete some or all of the Phase 1B forms listed above by the due date, you need to request an extension by sending a memo to your assigned OFM Accounting Consultant. The memo should list the form(s) for which an extension is needed and the date by which your agency can complete the form(s).

In order to accurately complete the disclosure forms by the due date, agencies should review the information in the Agency Financial Reporting System (AFRS) that is associated with the information on the disclosure forms and make necessary adjustments in AFRS prior to the end of Phase 2.

Each agency is **required** to complete the following state disclosure forms:

- Cash and Investments Restricted Disclosure
- Internal Control Questionnaire
- Miscellaneous Disclosure
- Financial Disclosure Certification

The remainder of the disclosure forms may or may not apply to your agency.

Specify on the lead sheet if a form is completed or not applicable by selecting “Yes” or “N/A” in the “Completed” column. If there is AFRS data pre-filled on a disclosure form for your agency, the Lead sheet will identify the form as “Required” and you must complete it.

All reporting of financial information is to be in **whole dollars**. Do not enter pennies, decimal points, dollar signs, etc. Refer to the “Tips” screen in the Disclosure Form application for more helpful information.

All financial information reported is to be reconciled to AFRS. Reports in Enterprise Reporting (ER) are available to assist in the reconciliation process. Agencies are encouraged to use these reports throughout the year to monitor reconciliation status.

**Cash and investments disclosure**

**General Instructions**

**Local and treasury accounts.** Agencies with **balances** at June 30 in the following general ledger (GL) codes are required to complete the cash and investments disclosure forms as applicable:

- 1110 Cash in Bank
- 1120 Undeposited Local Cash
- 1130 Petty Cash
- 1140 Restricted Cash and Investments, Current Operations
- 1150 Cash with Fiscal Agents
- 1205 Temporary and/or Pooled Cash Investments
- 1209 Short-Term Portion of Long-Term Investments
- 1210 Investments
- 1215 Investments under Reverse Repurchase Agreements
- 1216 Collateral held under Securities Lending Agreements
- 1220 Unamortized Premiums on Investments
- 1230 Unamortized Discounts on Investments
- 1240 Restricted Cash and Investments, Noncurrent
- 1280 Valuation Allowance - Investments

Amounts covered by the Federal Deposit Insurance Corporation (FDIC), the Public Deposit Protection Commission (PDPC), or the National Credit Union Administration (NCUA) are considered to be insured or collateralized. In general,

- FDIC insurance separately covers demand deposits and interest bearing deposits up to \$250,000 each, per taxpayer identification number (TIN), per bank.
- PDPC provides for a collateral pool for protection of balances in excess of the FDIC limits on deposit with Washington public depositories.
- NCUA insurance covers federal and state-chartered credit union accounts up to \$250,000 per TIN, per credit union. Per chapter 39.58 RCW, \$250,000 is the maximum deposit allowed in any one credit union, and excess deposits are not covered by the PDPC.

Uninsured/uncollateralized balances would include those deposited in out-of-state and alien banks.

There are three cash and investment disclosure forms:

90.40.20.a **Cash and Investments General Disclosure**

This form contains general questions concerning an agency's cash and investment activity. Information provided should be on an agency-wide basis.

90.40.20.b **Cash and Investments Restricted Disclosure**

**All agencies** are required to complete the Cash and Investments Restricted Disclosure form.

This form contains questions about restricted cash. Balances in GL Codes 1140 and 1240 "Restricted Cash and Investments" and GL Code 1150 "Cash with Fiscal Agents" are prefilled from AFRS and agencies are asked to provide a description of the nature of the restriction. The form also asks agencies to report unspent bond proceeds and any other externally restricted cash and investments recorded in AFRS at June 30.

90.40.20.c **Cash on Hand and in Bank Disclosure**

This form requests information concerning an agency's cash in bank by GL code as well as information on petty cash funds and undeposited receipts held in cash. Agencies are to report the following:

1. The June 30 total cash on hand.
2. The June 30 cash balance in bank as stated by the bank (i.e., bank statement), categorized by:
  - Insured or Collateralized
  - Uninsured/Uncollateralized
3. The June 30 book balance as reported in Agency Financial Reporting System (AFRS).

Except for accounts with very little activity, book and bank balances will normally be different due to outstanding checks and/or deposits in transit.

Explain the reason for any differences between book and bank balances in the comment box. Also explain in the comment box the reason and/or nature of any amounts listed in the Uninsured/Uncollateralized column.

90.40.20.d

**Certificates of Deposit (Non-negotiable) Disclosure**

This form is required to be completed if an agency has non-negotiable certificates of deposit reported in GL Codes:

- 1140 Restricted Cash and Investments, Current Operations,
- 1150 Cash with Fiscal Agents,
- 1205 Temporary and/or Pooled Cash Investments,
- 1209 Short-Term Portion of Long-Term Investments,
- 1210 Investments, or
- 1240 Restricted Cash and Investments, Noncurrent.

Certificates of Deposits (CDs) held by agencies (other than the State Investment Board) are generally non-negotiable. One of the features of non-negotiable certificates of deposit is a penalty when it is redeemed prior to maturity. Such certificates of deposits should be reported on this disclosure form. (Historically, only SIB has held negotiable CDs. Negotiable certificates of deposits should not be reported on this disclosure form.)

**Inventory disclosure**

**General Instructions**

All agencies with balances at fiscal year-end in inventory GL codes are required to complete the Inventory Disclosure form (90.40.35.A) for all accounts regardless of the value. Identify the method used to value each type of inventory.

There are two types of inventories - consumable inventories (GL Codes 1410 and 1415) and merchandise inventories (GL Codes 1420, 1430, 1440, and 1450). Consumable inventories are assets that are consumed in the course of an agency's business. Merchandise inventories, on the other hand, are assets held for resale. Merchandise and consumable inventories are mutually exclusive and are accounted for separately.

Refer also to Subsections 35.10.40 and 35.10.45.

For inventories on hand, other than donated consumable inventories, agencies are to select the applicable valuation method. Donated consumable inventories are recorded at fair value at time of acquisition.

Inventory methods include:

- **First-in, first-out (FIFO)** – This method allocates costs on the assumption that goods are consumed/sold in the order in which they were acquired. In other words, the first goods purchased are assumed to be the first used or sold. Thus, inventory on-hand is assumed to represent the most recent acquisitions.
- **Last-in, first-out (LIFO)** – This method allocates costs on the assumption that the last units acquired are the first units consumed/sold. Thus, inventory on-hand is assumed to come from earlier acquisitions.
- **Weighted average (W.A.)** – In general, this method values ending inventory based on the average cost per unit for the period.
- **Other** – An agency may use an inventory valuation method other than those described above as defined in writing by the agency inventory officer. If an agency uses another method, list the valuation method used.

**Capital assets – summary of activity disclosure**

**General Instructions**

All agencies with capital assets (GL Code series 2XXX) are required to complete the Capital Assets - Summary of Activity Disclosure form (90.40.38.A).

The debit and credit amounts shown on a trial balance report may not reflect true additions and/or deletions due to certain transactions and adjustments that inflate true activity. An example of inflated activity would be when an erroneous transaction is not backed out using a reverse code with the original transaction code. Agencies should **adjust AFRS to reflect their true activity** during the fiscal year, as reported in the disclosure form. For information and tools related to capital asset transactions, refer to our resources website at:

<http://www.ofm.wa.gov/resources/capitalassets.asp>.

**Additions** to capital assets should be those purchases or reclassifications that meet the state’s capitalization policy.

**Deletions** should reflect the sale or disposal of an asset.

**Adjustments** may include:

- Immaterial prior year corrections, such as an adjustment to the cost of an asset (increase or decrease) using GL Code 6597 Subobject WF in Account 997
- Transfers between agencies and/or accounts
- Impairments

Refer to Sections 30.20 and 85.60 and Subsection 90.20.15.f.

Increases to **allowance for depreciation** should be the result of and equal to increases in depreciation expense. Reductions in allowance for depreciation should be related to the sale or disposal of an asset.

**Adjustments** may include:

- Immaterial prior year corrections, such as a decrease to the allowance for depreciation using GL Code 6597 Subobject WF in Account 997
- Transfers between agencies and/or accounts
- Impairments

Agencies reporting activity in Account 997 “General Capital Assets Subsidiary Account” should review their capital asset activity coded to **Subobjects JC – JZ, SJ and TJ** in their governmental fund type account(s) and compare them to the activity in Account 997.

Additionally, capital asset GL balances reported in AFRS are required to be **reconciled to the agency’s subsidiary capital asset system** (for example, Capital Asset Management System (CAMS)). Refer also to Subsection 85.60.60.

### Depreciation and Allowance for Depreciation

Increases to depreciation expense are debits. If you have a credit to depreciation expense, please review and correct it in AFRS if appropriate, otherwise explain it below.

Increases to allowance for depreciation are credits. A debit to allowance for depreciation would be appropriate if there was a sale or disposal of an asset. If an asset is sold or disposed of, the asset GL code is credited and the allowance for depreciation GL code is debited.

Adjustments can be either debit or credit amounts. Examples of adjustments include: transfers between agencies and/or accounts, impairments, and certain immaterial prior year corrections. Adjustments require an entry in the Comment field.

June 1, 2016**Long-term construction commitments disclosure****General Instructions**

All agencies with long-term construction commitments are required to complete the Long-Term Construction Commitments Disclosure form (90.40.40.A). The state is required to disclose significant long-term commitments that are not reported in the financial statements. Construction commitments are the most common commitment of this type.

The form is designed to collect both the construction-in-progress project information for the fiscal year-end as recorded in AFRS (GL Code 2510) as well as remaining commitment information. A commitment is viewed as the estimated dollars necessary to complete a project.

Agencies are to list each significant project on a separate line by the account where it is recorded or will be recorded in AFRS. A project is considered significant if the amount of GL Code 2510 "Construction-in-Progress" at fiscal year-end exceeds \$2 million or if the remaining commitment exceeds \$10 million. All projects that do not meet the criteria for a significant project are to be aggregated and entered at the bottom of the form as "Other Miscellaneous."

The Department of Transportation should disclose commitments made for on-going infrastructure projects regardless of GL code used.

**Note:** Those amounts to be shown in the "Remaining Commitment" column are those remaining commitments not recorded in AFRS; i.e., not recorded as a disbursement or accrual in fiscal year-end agency financial activity. Occasionally, an agency may have a construction project that involves a significant commitment for the future, but no construction-in-progress has been recorded in AFRS. Such commitments should be disclosed by recording the information on a separate line with zero (\$0) in the current "Fiscal Year-End Construction-in-Progress" column.

**Leases, liabilities by major class – summary of activity, and Certificates of Participation (COPs) disclosure****General Instructions**

All agencies with operating and/or capital leases, and liability activity and/or balances are required to complete the Lease Disclosure form (90.40.45.A) and the Liabilities by Major Class – Summary of Activity Disclosure form (90.40.45.B). Agencies with Certificates of Participation (COPs) are to complete the Certificate of Participation Disclosure – Agencies form (90.40.45.C). OST (Bond Retirement and Interest Agency) is to complete the Certificates of Participation (COPs) Disclosure – OST form (90.40.45.D).

## 90.40.45.a

**Lease Disclosure**

This form collects information about operating and capital leases.

An **operating lease** is rental of an asset with a term of more than one year, where the payments are chargeable as rental or lease expenditures. Most operating leases contain clauses indicating that continuation of the lease is subject to funding by the Legislature. Historically, these leases have been renewed in the normal course of business. Therefore, they are treated as noncancelable for financial reporting purposes.

Operating leases can have a fixed payment schedule or include scheduled rent increases or contingent increases. Scheduled rent increases are fixed in contract while contingent increases are based on changes in specific economic factors, for example, future sales or inflation.

A **capital lease** is a lease that transfers substantially all the benefits and risks inherent in the ownership of property to the state. If at its inception, a lease meets one or more of the four criteria in Subsection 30.20.30, the lease is classified as a capital lease. Otherwise, it is classified as an operating lease. Refer to Subsection 30.20.40 for further information pertaining to accounting for capital leases.

Agencies are to report the following:

- 1. Operating leases (state agency is lessee)**

For all operating leases charged to Subobjects ED and EH during the fiscal year ended June 30 where the rental term was one year or longer, disclose by fund type the total lease expense/expenditures paid to **external** entities (not state agencies) in the “Payments to External Entities” rows. Disclose payments to the Department of Enterprise Services for state-owned property, payments to other state agencies, and internal payments within the agency for operating leases in the “Payments to Other State Agencies and Internal Payments within the Agency” rows.

2. **Total future minimum operating and capital lease payments (state agency is lessee)**

Agencies disclose, by fund type, total future minimum lease payments for all capital leases and all operating leases paid to **external** entities (not state agencies) having initial noncancelable lease terms in excess of one year, for each of the five succeeding fiscal years and in five year increments thereafter. **Reporting is as of June 30 and should be limited to existing leases. Do not project leases into future periods if there is not a current, existing lease with those terms.**

Executory and interest costs are not included in the net present value of minimum lease payments. Executory costs for capital leases pertain to insurance, maintenance, and taxes, whether paid by the lessor or lessee. Interest costs refer to “imputed” interest costs, which reduce the net minimum future lease payments to present value. The interest rate to be used in determining the present value of the minimum lease payments is the interest rate the State of Washington would pay on its major bond issues at the inception of the lease. Refer to Subsection 85.85.40.a.(1).

The net present value of future minimum lease payments for Capital Leases is compared to the AFRS balances in GL Codes 5172 and 5272, including balances in Account 999 “General Long-Term Obligations Subsidiary Account.” Any difference must be explained.

3. **Capital leases (state agency is lessee)**

Agencies disclose the gross amount of assets recorded under capital leases less allowance for depreciation as of June 30. Balances are reported by fund type and by major class of asset. Include capital assets reported in Account 997 “General Capital Assets Subsidiary Account.”

Generally, the net value of assets recorded under capital leases should approximate the net present value of future minimum lease payments recorded in (2) above.

4. **Future operating and capital lease receipts (state agency is lessor)**

If leasing to **external** entities is a significant part of your agency’s business activity in terms of revenues or assets, disclose by fund type, the total future minimum lease payments that you expect to receive as of June 30 for each of the five succeeding fiscal years and in five year increments thereafter.

- In proprietary fund type accounts, **new issues** (increases) should equal the par amount of the new COP.
- For GL Code 1911 "Unamortized Discounts on Certification of Participation", the balance is normally a debit, increases are normally debits, and decreases are normally credits. Enter increases in the Increase column, as positive amounts. Enter decreases in the Decrease column, as negative amounts.

**Unavailable and unearned revenues disclosure****General Instructions**

All agencies with unavailable/unearned balances as of fiscal year-end must complete the Unavailable and Unearned Revenues Disclosure form (90.40.50.A).

Balances in the following GL Codes are to be reported by account and type:

- 5190 and 5290 Unearned Revenues
- 5192 and 5292 Unavailable Revenues

Choose from the following list the type that is most applicable:

- Charges for services
- Donable goods
- Grant or donation
- Miscellaneous/Other\*
- Other taxes
- Property taxes
- Timber sales
- Tolls
- Transportation related charges

\* Limit your use of the Miscellaneous/Other type. If Miscellaneous/Other is used, a description is required in the Comments or Description column.

Also complete these fields on the form:

- Recognition Criteria
- Source of Funds (federal, state, private/local)

**Unearned Revenues (GL Codes 5190 and 5290):**

May be reported in both governmental and proprietary type accounts. Revenues that are unearned are recorded to GL Codes 5190 and 5290. Unearned means that the earnings process is not yet complete.

Examples of revenues not yet earned include:

- Federal assistance received in advance,
- Insurance premiums received in advance,
- Prepaid tolls,
- Prepaid tuition and fees (summer school), and
- Prepayments made pursuant to agreements.

Refer also to Subsections 85.70.45.

**Unavailable Revenues (GL Codes 5192 and 5292):**

May be reported only in governmental fund type accounts. Revenues that are unavailable are recorded to GL Codes 5192 and 5292.

GL Code 5292 should be used to offset a receivable for which the asset recognition criteria has been met, but the governmental fund revenue recognition criteria has not been met. Generally, in governmental funds, accrued revenue sources are deemed unavailable if collectible beyond one year. Examples include long term receivables and contracts associated with the harvest of timber that extend beyond 12 months.

GL Code 5192 should be used only in limited instances where revenue associated with a receivable does not meet the revenue recognition criteria and will be collected within one year. An example where GL Code 5192 is properly used is to offset property taxes receivable that are expected to be collected after 60 days following year end but within one year.

**Bond Sales Disclosure**

This form collects required disclosure information about **current year bond sales** including refunding issues, defeased debt outstanding at year end, and bond issues subsequent to year end.

### Current year bond sales

For bond sales, disclose the following information by Proprietary or Governmental fund type:

- Account the bonds were recorded in AFRS
- Name of bond series
- Delivery date of bond series
- Type of Bond
- Is it a Refunding Bond?
- Is it a Taxable Bond?
- Purpose of the Bonds
- Par amount for the Bond series per the official statement
- Bond series premium/discount

This form will check the amounts disclosed against the amounts reported in the Bond Debt by Major class disclosure form and against AFRS data.

This form also collects required disclosure information on bond debt refunding activities.

The state is required to disclose bond debt refunding activity for bond debt refunded in the current year and for bond debt refunded in prior years that remains outstanding.

- **For all agencies other than OST**, this disclosure form is required to be completed **only** if your agency had a bond debt refunding that was **not** part of a refunding done by OST, **or** if your agency had bond debt refunded in prior years that remains outstanding and that was **not** part of a refunding done by the OST.
- **OST Bond Retirement and Interest Agency (Agency 0100)** is required to complete this disclosure form for General Obligation Bond debt refundings.

In addition to a general description of the bond refunding, two additional items are required to be disclosed:

- **The difference between the cash flows required to service the old bond debt and the cash flows required to service the new bond debt and complete the refunding.** When measuring the difference between the two cash flows, additional cash used to complete the refunding paid from resources other than proceeds of the new bond debt (for example, for issuance costs or payments to the escrow agent) should be added to the new bond debt cash flows. Accrued interest received at the bond issuance date should be excluded from the new bond debt cash flows. If the new bond

debt is issued in an amount greater than that required for the refunding, only that portion of bond debt service applicable to the refunding should be considered.

- **The economic gain or loss resulting from the transaction.**  
Economic gain or loss is the difference between the present value of the old bond debt service requirements and the present value of the new bond debt service requirements, discounted at the effective interest rate and adjusted for additional cash paid, as noted above.

The **effective interest rate** is the rate that, when used to discount the debt service requirements on the new debt, produces a present value equal to the proceeds of the debt (including accrued interest) net of any premiums or discounts and any underwriting spread and issuance costs that are not recoverable through escrow account earnings. Issuance costs include all costs incurred to issue the bonds, including but not limited to insurance costs (net of rebates from the old debt, if any), financing costs (such as rating agency fees), and other related costs (such as printing, legal, administrative, and trustee expenses).

### **Defeased bonds**

The state is required to disclose debt defeased in substance that remains outstanding, regardless of how the cash and monetary assets were acquired, in an advance refunding.

If your agency has performed your own bond debt refunding (not through OST) disclose the amount at June 30 of debt defeased in substance and the amount for which essentially risk-free monetary assets were substituted for not essentially risk-free monetary assets. The amounts disclosed should include any remaining prepaid insurance related to the extinguished debt.

### **Bonds issued subsequent to year end**

The state is also required to disclose debt issued subsequent to June 30. Disclose requested information about debt issued in the period between July 1 and December 31 of the current fiscal year.
