Fiscal	Finding		Finding and	
Year	Number	Corrective Action Plan		
2019	001	Finding:	The State's internal controls over financial reporting were insufficient to ensure accurate recording and monitoring of financial activity in its financial statements.	
		Questioned Costs:	CFDA #AmountN/A\$0	
		Status:	Corrective action in progress	
		Corrective Action:	The Office of Financial Management (OFM), with the collaboration of state agencies, strives for the highest standards in the preparation of the state's financial statements. OFM has discussed the issues with the agencies included in this finding and provided assistance in developing their respective corrective action plans. Responses from each agency are listed below:	
			State Board for Community and Technical Colleges	
			Since July 2017, the State Board for Community and Technical Colleges (State Board) has been working on developing and implementing an automated process to accurately and completely upload ctcLink financial transactions into the state's accounting system, Agency Financial Reporting System (AFRS).	
			As of April 2019, the State Board implemented an automated AFRS customized upload process after a yearlong design and testing effort. This upload process provided the State Board the ability to extract college data, process errors, and report data through June 2019 to the Office of Financial Management.	
			On July 1, 2019, a newly re-designed global chart of accounts was implemented, which has significantly improved the college system's ability to consistently track and report revenues and expenses. However, this implementation affected the AFRS upload process; requiring the customization to be re-configured to work with the new chart of accounts.	
			As of October 2019, the re-configured customization was completed, tested, and successfully deployed. The State Board has been working on fine-tuning the automated upload process and providing training to college clients on the newly implemented process.	
			As of February 2020, the State Board hired a System ctcLink Account Coordinator, a new position dedicated to coordinate, review, and support the AFRS upload process.	
			The State Board will continue to provide technical assistance to all colleges in their efforts to reconcile accounting records with the state accounting system.

<b>Year</b> 2019	Number001(cont'd)		Healthcare Authority
	(cont d)		The Authority recognizes the significance and priority of internal controls over recording and reporting financial transactions.
			The Authority disagrees that annual assurance over ProviderOne controls are necessary and that the Authority did not address monitoring in its ProviderOne contract language. Currently, the vendor provides an independent service organization control (SOC) audit every other year. The estimated additional cost to purchase an annual SOC audit report is \$470,000 each biennium.
			In both 2019 and 2020, the Authority requested funding from the legislature to contract for the additional SOC audit report. These requests were not funded.
			The Authority will continue to submit request for funds to obtain this report in order to resolve the audit finding.

2019	002	Finding:	The Department of Social and Health Services improperly charged \$717,011 to the SNAP Cluster.	
		Questioned Costs:	CFDA #         Amount           10.551         \$717,011           10.561         \$717,011	
		Status:	Corrective action in progress	
		Corrective Action:	The Department partially concurs with the finding.	
			While the Department concurs \$717,011 in expenditures were initially charged to the SNAP-Ed grant before the start of the performance period, the Department does not concur it was out of compliance with grant regulations. The Department corrected the charges during August 2019, which is within the grant's two-year federal period of performance cycle.	
			As of February 2020, the Department implemented the following reviews:	
			<ul> <li>Monthly reviews to identify and correct expenditures that are out of compliance with period of performance requirements.</li> </ul>	
			• A final end-of-the year review to ensure all expenditures charged outside the period of performance are corrected before the state accounting records close.	
			By June 2020, the Department will request an additional full time accounting position to assume the responsibility for monitoring compliance with period of performance requirements.	
			If the grantor contacts the Department regarding questioned costs that should be repaid, the Department will confirm these costs with the Department of Health and Human Services and will take appropriate action.	
			The conditions noted in this finding were previously reported in findings 2018-002, 2017-002, 2016-002, 2015-003 and 2014-022.

2019	007	Finding:	The Department of Health did not have adequate internal controls over and did not comply with requirements for procurements of goods and services funded by the Special Supplemental Nutrition Program for Women, Infants, and Children program.
		Questioned Costs:	CFDA #         Amount           10.557         \$0
		Status:	Corrective action complete.
		Corrective Action:	This finding resulted from a misunderstanding about an entity thought to be a quasi-governmental entity, which led to the procurement using an intergovernmental agreement instead of a competitive contracting process.
			As of December 2019, the Department:
			• Terminated the contract with the entity that listed itself as a quasi- governmental entity.
			• Processed a replacement contract with the entity for grant program services using established contract procedures and the appropriate non-interagency contract terms.
			• Executed contracts for other grant programs with the entity that met sole source criteria following procedures stipulated in the Department of Enterprises Services procurement policies.
			• Communicated to contract staff that they must confirm the legal status of all entities.
			Additionally, the Department will:
			• Send periodic reminders to staff regarding the legal status of entities.
			• Confirm and document the quasi-governmental status of all new entities in the procurement files.

			As described in the finding, the Department has written policies and procedures for subrecipient monitoring including:
			<ul><li>Verifying whether the subrecipient requires a single audit.</li><li>Reviewing audit reports.</li></ul>
			• Following-up on subrecipient audit findings.
			• Ensuring management decisions are issued timely when required.
			The Department's Contract Management System (CMS) contains a field to indicate if a single audit is required for a subrecipient at the time a contract is entered into the system. Staff generate quarterly reports from CMS to identify subrecipients that:
			• Have audit requirements, to help ensure audit reports are submitted, and any audit findings are identified and captured in the system.
			• Do not have audit requirements have submitted verification forms.
			Due to the timing of the report reviews, information is not always collected timely to enable follow-up with subrecipients within the required time frame.
			To improve internal controls, the Department will:
			• Update procedures to run the CMS report prior to the end of the nine month required time frame so reminders can be sent to subrecipients.
			• Work with staff responsible for entering audits into CMS to ensure audit requirements are correctly indicated.
			• Ensure audit reports are properly reviewed and identify findings that require appropriate follow-up actions in accordance with federal regulations.
			• Improve communication to staff to ensure work processes follow established policies related to subrecipient audit monitoring.
			The Department will follow up on the subrecipient audit finding identified during the audit and issue a management decision as required by federal regulation.

2019	012	Finding:	The Employment Security Department did not have adequate internal controls over fiscal monitoring requirements to ensure Workforce Innovation and Opportunity Act program funds were being used for allowable purposes.	
		Questioned Costs:	CFDA #         Amount           17.258         \$0           17.259         17.278	
		Status:	Corrective action not taken	
		Corrective Action:	The Department does not concur with the finding.	
			The Department maintains that current subrecipient monitoring process and procedures are adequate to meet all federal requirements and to ensure funds expended are on allowable services for eligible participants.	
			Federal regulations require grantees to perform subrecipient monitoring on an annual basis to ensure proper internal controls exist across pass- through entities, subrecipients and contractors expending federal funds. In accordance with this requirement, the Department established a mandatory annual onsite monitoring process for the Workforce Development Councils (WDCs). A risk-based assessment process is also in place to support the onsite reviews and continues throughout the monitoring process.	
			The Department has the following established procedures in monitoring WDCs, which involve staff from multiple units:	
			• Funds management staff and fiscal staff conduct on-going review of supporting documentation for funding requests from WDC. These reviews form part of the initial risk assessment prior to the onsite reviews.	
			• Subrecipient monitoring staff performs analysis of each WDC's spending documentation to assess its capacity to handle funds and deliver services. This analysis often helps to shape the scope of each review.	
			• During onsite reviews, subrecipient monitoring staff:	
			<ul> <li>Review recent draw requests by WDCs and all supporting documentation for allowability, allocability and reasonableness.</li> </ul>	
			<ul> <li>Review internal control policies, processes and procedures. If control weaknesses are identified, WDCs are required to develop corrective action plans to address identified deficiencies.</li> </ul>	
			<ul> <li>Review supportive services provided to participants by WDCs or their subrecipient/service providers.</li> </ul>	
			<ul> <li>Review participant files to ensure that individuals receiving services are eligible and were reported correctly to the federal grantor.</li> </ul>

		Corrective Action:	The Department does not concur with the finding.	
			After consulting with the Federal Highway Administration (FHWA) and conducting additional research, the Department maintains that current process complies with the Davis-Bacon Act and federal regulations for contractor payment of prevailing wages.	
			In April 2019, the Department received a management decision letter from FHWA in response to the fiscal year 2018 finding, which stated:	
			• FHWA approved the Department's Construction Manual and Standard Specifications and confirmed that documented procedures contain the necessary controls to ensure reasonable compliance with 29 CFR 5.5 and the Davis-Bacon and Related Acts.	
			• FHWA agreed that current processes in place are reasonable and satisfy the intent of the Department of Labor's certified payroll requirements.	
			In an effort to continue to improve, the Department took the following actions to collect certified payrolls timely:	
			• Highlighted the requirements for collecting certified payrolls at statewide construction meetings.	
			• Released an agency-wide Construction Bulletin regarding the monitoring and timely collection of certified payrolls.	
			• Worked with the Department of Labor and Industries (L&I) to utilize their Prevailing Wage Intent & Affidavit (PWIA) system to electronically collect and store certified payrolls. The PWIA system went live on January 1, 2020 and is expected to obtain federal system certification in March 2020.	
			Since the prior year's audit finding was issued late in the fiscal year 2019 audit cycle, the Department was not able to fully implement these improvements during the current audit period, The full effectiveness of these changes cannot be determined until the fiscal year 2020 audit cycle.

		Status:	Corrective action in progress
		Corrective Action:	The Department partially concurs with the finding.
			The Department collaborated with the Department of Children, Youth and Families (DCYF) to procure an electronic attendance record system. The system enables accurate and real-time recording of child care attendance, tracks daily attendance, and captures data on child care usage.
			As of December 2018, licensed providers who accept subsidy are required to use DCYFs electronic attendance record system or an approved third party system to track attendance. As of November 2019, Family, Friends, & Neighbors (FFN) providers were added to this requirement.
			Of the nine exceptions reported, the Department concurs that six of the payments were partially or fully unallowable. By June 2020, the Department will work with DCYF to establish overpayments where appropriate and refer these overpayments to the Office of Financial Recovery for collection.
			The Department does not concur that three of these payments were unallowable. The auditor found these payments to be unallowable because the providers submitted records for the correct month, but not for the child sampled. However, the Department was not given the opportunity to follow up with the providers to obtain the appropriate attendance records.
			The Department and DCYF have already reached out to the providers and will continue to follow-up on the missing attendance records and determine the appropriate next steps.
			If the Department of Health and Human Services (HHS) contacts the Department regarding questioned costs that should be repaid, the Department will confirm these costs with HHS and will take appropriate action.

			In response to prior year's audit finding for the Temporary Assistance for Needy Families (TANF) grant, the Department established written code change policies and procedures and developed a process to track code changes.
			As of September 2019, the Department implemented:
			• IT industry standard formal change control procedures and change control logs. The change control procedures include written descriptions of the roles and responsibilities of staff who make coding changes and management who review the changes.
			• Microsoft Team Foundation Server for source code control, testing and quality assurance activities.
			• The requirement of completing a technical assessment form when changes are requested for the TANF federal reporting process. Technical assessment forms are subject to independent review and approval by the TANF Reporting Manager before code changes are executed.
			Due to the timing of implementation, these process changes and the resulting improvement in internal controls will not be reflected until the fiscal year 2020 audit cycle.
			The Department continues to:
			• Conduct a review of each quarterly report to identify potential fatal and warning edits.
			• Conduct a quarterly quality assurance process by randomly selecting a sample of the reported cases to verify against source data system records for accuracy. Department manager reviews a summary of the results and assigns cases for correction as needed.
			By May 2020, the Department will fill a position for performing and documenting independent reviews and testing of code changes prior to deployment to the production environment.
			The conditions noted in this finding were previously reported in findings 2018-028, 2017-020, and 2016-016.

2019	031	Finding:	The Department of Social and Health Services did not have adequate internal controls over and was not compliant with requirements to ensure quarterly and annual reports for the Temporary Assistance for Needy Families grant were submitted accurately.
		Questioned Costs:	CFDA #         Amount           93.558         \$0
		Status:	Corrective action in progress
		Corrective Action:	The Department partially concurs with the finding.
			The Department concurs that one of the four quarterly reports tested did not have supporting accounting records, and that a data entry error of \$1 million was found on one other quarterly report. The Department corrected the error in a subsequent quarterly report prior to the audit. Following the discovery of this error, the Department implemented a secondary review process to prevent data entry errors.
			The Department does not concur with the auditors' statement that the Department did not maintain adequate documentation to support the \$480 million expenditures of other state agencies reported as part of the maintenance of effort (MOE) requirement.
			In response to the prior two years' audit findings, the Department:
			• Added an additional control by updating the attestations at the beginning of each year to include written declarations for all participants to state that the previous year's sources are viable for the current fiscal year.
			• Implemented a quarterly monitoring/reporting schedule for all MOE sources to ensure timely confirmation that reported expenditures are allowable and accurate.
			By using the attestations, quarterly monitoring/reporting and data exchanges, the Department reviews the expenditures of each partnering agency to ensure they are accurate, verifiable, not used for any other federal matching purpose and are adequately supported.
			The Department maintains that these compensating controls meet federal regulations requiring expenditures to be "verifiable".
			By June 2020, the Department will formally request an additional full time accounting position that will be responsible for managing the Temporary Assistance for Needy Families grant to include preparation and submission of quarterly reports. In addition, this position will be responsible for creating a sustainable emergency backup plan to ensure coverage during absences, as well as strengthening and enhancing internal controls.
			The conditions noted in this finding were previously reported in findings 2018-029, 2017-021, 2016-018, and 2015-021.

			Previously, the Department's Low-Income Home Energy Assistance (LIHEAP) program tracked conservation education, other direct services, and direct services under one budget line item of "direct services."
			In October 2018, LIHEAP made adjustments to program practices to track program expenditures by individual master index codes in the Department's Contract Management System and statewide accounting system. As of February 2020, master index codes have been established for the following expenditure categories:
			<ul><li>Administrations</li><li>Conservation education</li></ul>

			In response to prior year's audit recommendations, the Low-Income Home Energy Assistance program (LIHEAP) had strengthened internal controls over monitoring activities of subrecipients to ensure program subawards are used for authorized purposes. The current monitoring process:				
			• Increased the threshold for onsite and desk monitoring review from one to three months of fiscal transactions.				
			• Required general ledger and back up documentation to be submitted for each selected transaction to verify costs are allowable.				
			LIHEAP has established procedures to expand fiscal monitoring over reimbursements by requiring back up documentation for each request, which include a roll-up summary that:				
			• Documents the exact costs charged to the grant by specific codes in the accounting system assigned to the grant.				
			• Links actual expenditures to the amounts requested for reimbursement.				
			LIHEAP has also established procedures for documenting monitoring activities that are conducted during onsite visits, which include:				
			• Review of a sample of timesheets to verify and confirm salary/benefits charged on previously submitted invoices are appropriately supported.				
			• Review of subrecipient's fiscal policies and procedures.				
			• Documenting any other fiscal monitoring activities on the site visit report.				
			As of February 2020, LIHEAP updated the subaward certification form to include whether the subrecipient has a federally negotiated indirect rate. This will ensure the subaward clearly identifies the indirect cost rate.

			During the audit period, grant reconciliations were not performed timely because the Department had to focus resources on transitioning two major federal programs and the onboarding of approximately 1,500 employees.			
			Since then, the Department has prioritized reconciliations of the Child Care and Development Fund grants. Based on these reconciliations, the Department has identified and made corrections to expenditures to comply with the period of performance requirements. However, these corrections were made outside of the audit period and therefore were not taken into consideration when the auditors concluded audit work and issued this finding.			
			It should also be noted that due to the late timing of the auditors' request for and review of financial records, the Department was not given sufficient time to complete verification of \$6,591 and concur if this amount was actually charged to the incorrect grant period.			
			In response to the audit recommendations, the Department:			
			• Strengthened internal controls to ensure grant expenditures are obligated and liquidated within the grant period of performance.			
			• Completed journal voucher corrections for \$390,574 of expenditures identified as charged to the incorrect grant period.			
			By June 2020, the Department will review records for the remaining expenditures identified by the auditors to determine if corrections are necessary.

			Provider Inspections		
			The Department has taken corrective actions to ensure timely follow-up on health and safety violations identified on the Facility Licensing Compliance Agreement.		
			As of August 2019, the Department:		
			• Established three different risk levels for corresponding violations, which require follow-up within specific timelines depending on the level of risk associated with the violations.		
			• Updated policies and procedures to reflect the new risk-based methodology for ensuring health and safety violations follow-up are conducted timely and are adequately documented.		
			As of February 2020, the Department added an enhancement in the new electronic licensing system, WA Compass, to track when follow-up health and safety visits are due.		
			Background Checks		
			In October 2018, the Department implemented the new background check rules for license-exempt Family, Friends, & Neighbors (FFN) providers. Due to limited staffing resources and high volume of providers, the portable background check (PBC) process often did not commence timely, resulting in delay in processing provider applications. During this period of transition to bring the Department into compliance with changes in the new federal grant reauthorization rules, the Department's license exempt team would request backdating FFN providers' payment start date in some instances when their PBC results were returned as approved.		
			As of March 2020, the Department has ceased the backdating practice for all new PBCs.		
			The Department will consult with the grantor to discuss whether the estimated questioned costs identified in the audit should be repaid.

			The Department has process and procedures in place for the monthly employee reconciliation of the Random Moment Time Study (RMTS) sampling universe.
			The audit found the headquarter cost allocation team was following procedures to create and communicate monthly employee reports to the RMTS Coordinators. However, not all RMTS coordinators sent updates to the Program Manager regarding employee changes.
			In response to the finding, the Department will strengthen internal controls, including monitoring, over the monthly update process to ensure the RMTS sampling populations are complete.

			During the audit period, the Department had to focus resources on transitioning two major federal programs and the onboarding of approximately 1,500 employees. Due to limited staffing resources, documentation for allocating administrative expenditures to federal grants was not properly completed.
			In response to the audit recommendations, the Department has strengthened internal controls over processing changes to the cost allocation bases in the state accounting system. These included:

		Corrective Action:	This finding is based on a specific data exchange method in which most insurance carriers have chosen not to participate and which the Authority has no legal authority to enforce. The auditor recommended the Authority seek and obtain the legal authority through legislation. While it is not within the Authority's scope of responsibilities to regulate insurance companies, several other methods of data sharing are regularly employed to achieve the goal of identifying third party liability.
			After last year's unsuccessful attempt, the Authority again drafted legislation for the 2020 legislative session. House Bill 2677 is a technical correction that modifies existing state law to more appropriately align with state practices.
			The legislation unanimously passed both the House of Representatives and Senate and was signed into law by the governor on March 27, 2020. The Authority believes this finding will be resolved through the enactment of this new law.

			The Department uses cost report information to establish rates and determine settlements with supported living providers.
			During the audit period, the Department was in transition to a new rate methodology:
			• July 1 to December 31, 2018: based on number of support hours a client needs to live successfully in the community.
			<ul> <li>January 1 to June 30, 2019: a tiered rate is assigned based on a client's support needs.</li> </ul>
			July 1 to December 31, 2018
			For the audit exceptions reported on cost reports, settlements and employee timesheets, the Department disagrees with the cause of condition which stated that the Department did not perform procedures to determine if a client received their assessed level of support hours, or reconcile the payments to provider timesheets.
			Cost reports are submitted on a calendar year basis. The 2018 cost reports were due on March 31, 2019. As of June 2019, the Department completed an internal audit of all the 2018 cost reports including a comparison to payroll records for the calendar year. The auditors did not evaluate this activity even though it was completed within the audit period.

2019	054 (cont'd)	• Will continue to act within its authority to consider provider circumstances, such as overtime, and grant exceptions as necessary when calculating settlements.
		January 1 to June 30, 2019
		The Department strongly disagrees with the audit approach and the auditors' disallowance of all tiered-rate reimbursements for the second half of the fiscal year.
		The Centers for Medicare and Medicaid Services (CMS) requires a periodic review of rate methodology and the Department's hours-based methodology was established over 10 years ago. With the goal of improving efficiency without losing oversight or monitoring of costs, the Department reviewed various rate methodologies suggested by CMS, and decided on the tiered-rate methodology, which:
		• Provides increased flexibility for providers to deliver services.
		• Gives the providers the ability to increase focus on positive client outcomes.
		• Improves the cost reporting process.
		Reduces unnecessary administrative burdens.
		The Department amended the federal waiver to include:
		• Description of the tiered rates and the reimbursement methodology
		• Internal controls for:
		<ul> <li>cost reporting</li> </ul>
		<ul> <li>payment review</li> </ul>
		• rate assessment and budget process
		• Cost report review process to reflect the tiered-rate methodology.
		The tiered rates and amended federal waiver were approved by CMS prior to the January 1, 2019, implementation.
		The Legislature approved the process where providers prepared and submitted cost reports for each calendar year, and has established strict fiscal requirements to ensure payments are made accurately. This involve routine review of expenditures by budget and rates divisions, resource administrators and the Developmental Disabilities Administration's (DDA) Central Office teams.
		However, the fiscal year 2019 audit only covered the first six months of the new tiered-rate methodology. Of the \$114,435,961 in questioned costs identified in the audit, \$111,498,751 (97 percent) was based upon services provided from January through June 2019. The Department believes this portion of the questioned costs was the result of an incomplete fiscal review process when the 2019 cost reports are not available until March 2020.

			Currently, Medicaid claims are processed in two separate payment systems, specifically:
			• ProviderOne system for hospitals and long-term care (LTC) facilities where delay in submitting claims is typical, sometimes several months after services have been delivered.
			• IPOne system for individual providers where claims are generally submitted shortly after services are provided.
			Due to different claim requirements in two payment systems, it is currently impossible to establish an automated process to prevent personal care providers from claiming unallowable costs when clients were hospitalized or in a LTC facility. The Department can only detect duplicate payments after both payments have been made.
			The Department has the following mitigating controls in place:
			<ul> <li>As of November 2018, developed a report to identify payments made to all providers for in-home personal care services and mileage while a client was either hospitalized or admitted to a LTC facility.</li> </ul>
			• As of March 2019, implemented a process to review claims made in the prior month and identify potentially unallowable claims. If determined unallowable, these claims are flagged for overpayments.
			• As of January 2020, a functionality was implemented in IPOne to allow the Department to process overpayments.
			By April 2020, the Department will send written reminders to all individual providers that claiming in-home personal care hours is prohibited while a client is either hospitalized or admitted into a LTC facility.
			The Department will return the questioned costs to the Department of Health and Human Services for the unallowable claims.

		Status:	Corrective action in progress
		Corrective Action:	The Department partially concurs with the finding.
		Action	The Department agrees that a person-centered service plan should be signed by the Department, client, and provider responsible for its implementation.
			However, the Department disagrees that:
			• A lack of required signatures on the service plan should result in questioned costs when the client is eligible for the services and the provider is qualified to deliver services. The Centers for Medicare & Medicaid Services (CMS) has also provided guidance to the Department that services should not be terminated if required signatures cannot be obtained.
			• A service plan that is not signed by a client, a provider, or the Department within 60 days should be considered an exception. The 60-day timeline in the state law outlines an administrative option that could_be utilized by the Department to terminate services when deemed necessary.
			The Department also has concerns over the objectives of the additional reviews performed in the fiscal year 2019 audit, as follows:
			• The auditors significantly broadened the scope of the audit by including interim assessments, which increased the number of asserted exceptions compared to when only full assessments were included.
			• The auditors performed follow-up testing on the 59 exceptions previously reported in the fiscal year 2018 audit finding. The auditors subsequently took exceptions on the client service plans that were still not complete for part or all of the current audit period and assigned questioned costs to the current audit finding.
			The Department does not agree that re-testing of the prior year's audit exceptions is valid. By performing audit testing on outdated client service plans included in the prior year's audit, the auditor's approach essentially disregarded the Department's good faith effort in attempting to remediate exceptions from the prior audit.

2019	057		As of June 2019, the Department:
	(cont'd)		• Revised policies and procedures to require providers' signatures on person-centered service plans.
			• Issued a management bulletin to communicate the updated policies and procedures, and address the use of electronic signature technology in the field.
			• Created a mechanism for case managers to collect signatures on an electronic signature pad. The Department will continue to work with field staff to encourage the use of this technology.
			• Conducted numerous meetings with the directors of Area Agency on Aging to discuss policy changes on service summary signatures and staffing issues caused by the increased workload.
			The Department currently included reviewing compliance with signature requirements on client service plans as part of the formal quality assurance (QA) reviews. However, the outcomes of these enhanced QA activities were not reflected in the fiscal year 2019 audit period. By July 2020, the Department will:
			• Provide additional training to staff on relevant federal regulations and state policies.
			• Establish guidance on the appropriate use of interim assessments.
			The Department will continue to implement process improvement plans. By September 2020, the Department will identify under-performing offices and provide assistance in conducting root-cause analysis. Based on the results, the Department will create a report summarizing statewide trends and develop action steps as needed.
			By December 2020, the Department will:
			• Submit a request in the Governor's budget for:
			• Adding dedicated staff to collect signed service plans.
			• Implementing an information technology enhancement that will reduce, but not eliminate, the manual effort necessary to collect signed service plans.
			• Consult with CMS to determine if person-centered service plans that are missing signatures should result in an unallowable payment. If necessary, the Department will identify associated costs related to any unallowable payments.
			• Work with the U.S. Department of Health and Human Services to determine if any costs charged to Medicaid funds must be repaid.
			The conditions noted in this finding were previously reported in finding 2018-059 and 2017-045.
		Completion Date:	Estimated December 2020

		Questioned Costs:	CFDA #         Amount           93.775         \$2,169,725           93.777         93.778
		Status:	Corrective action in progress
		Corrective Action:	The Department partially concurs with the finding.
			The Department agrees that a person-centered service plan should be signed by the Department, client, and provider responsible for its implementation.
			However, the Department disagrees that:
			• A lack of required signatures on the service plans should result in questioned costs when the client is eligible for the services and the provider is qualified to deliver services. The Centers for Medicare & Medicaid Services (CMS) has also provided guidance to the Department that services should not be terminated if required signatures cannot be obtained.
			• A service plan that is not signed by a client, a provider, or the Department within 60 days should be considered an exception. The 60-day timeline in the state law outlines an administrative option that could_be utilized by the Department to terminate services when deemed necessary.
			The Department also has the following concerns over the objectives of the additional reviews performed in the fiscal year 2019 audit, as follows:
			• The auditors performed follow-up testing on the exceptions previously reported in the fiscal year 2018 audit finding. The auditors subsequently took exceptions on the client service plans that were still not complete for part or all of the current audit period and assigned questioned costs to the current audit finding.
			• The Department does not agree that re-testing of the prior year's audit exceptions is valid. By performing audit testing on outdated client service plans included in the prior year's audit, the auditor's approach essentially disregarded the Department's good faith effort in attempting to remediate exceptions from prior audit.
			Currently, the Department has the following quality assurance process in place to monitor compliance in obtaining required signatures on person-centered service plans:

			• The review measures statewide proficiency for obtaining required signatures in an established annual cycle. If the review finds a proficiency rate below 86 percent, the Department will implement a quality improvement plan to improve statewide performance.
			• Case manager supervisors monitor compliance by ensuring all case managers meet the requirement of obtaining signatures through all available department-approved options.
			The Department will continue to work towards implementing the electronic signature option.

			Area Agencies on Aging (AAA) monitor home care agencies (HCAs) for contractual compliance in many areas, including verification of time and task performance. In response to the prior year's audit finding, the Department modified the tool provided to AAAs for more effectively monitoring HCAs' compliance with electronic timekeeping contractual requirements.	
			The Aging and Long-Term Support Administration State Unit on Aging (SUA) reviews a random sample of HCAs to determine if the AAA monitored and reviewed compliance with the electronic time keeping requirements as outlined in the HCA Monitoring Tool.	
			The Department maintains that the monitoring by the AAA and SUA is adequate to provide assurance that Medicaid payments to home care agencies were allowable.	
			Additionally, the fiscal year 2019 audit did not identify any exceptions related to electronic time keeping compliance, which provided further evidence that the current internal controls implemented by the Department are working as intended.

		Questioned Costs:	CFDA #         Amount           93.775         \$0           93.777         \$0           93.778         \$0	
		Status:	Corrective action not taken	
		Corrective Action:	The Department does not concur with the finding.	
			The Department maintains adequate internal controls to ensure survey requirements for Medicaid intermediate care facilities are met. The Department uses a tracking spreadsheet to monitor and track the frequency of facilities' recertification surveys to meet the survey timeline for both federal and state requirements.	
			The auditors identified one facility for which the Department did not complete a recertification survey within the federally required 15.9 month survey interval. This facility was under an 11-month alternate sanction of a Denial of Payments for New Admissions effective September 13, 2017. The due date for the facility's recertification survey fell within this 11- month sanction, during which the Department waited for the facility to submit a credible allegation of compliance indicating the deficiencies that led to the alternate sanction had been corrected.	
			The Department received the facility's letter of credible allegation on August 1, 2018, and subsequently conducted a revisit survey on August 6, 2018, confirming that the facility achieved substantial compliance. The Department completed the facility's recertification survey two days later.	
			Effective January 1, 2019, the facility voluntarily terminated participation from the Medicaid program.	
			The conditions noted in this finding were previously reported in findings 2018-052, 2017-042, 2016-037, 2015-045, and 2014-046.

		Corrective Action:	The Department concurs with the finding and has taken the following corrective actions:	
			<ul> <li>As of November 2017, developed a process to screen and track each nursing facility contract to ensure validation and revalidation occurs within the five-year requirement. All nursing facility screenings were completed as of September of 2018.</li> <li>As of October 2018, implemented the new automated provider screening process in the Agency Contracts Database (ACD). The new process includes an internal control that prevents a new or renewal Medicaid contract to be approved or signed before the screening process is successfully completed in ACD. No exceptions were identified in the fiscal year 2019 audit after the implementation of the new screening process.</li> <li>As of January 2020, notified local offices of the revalidation exceptions and communicated the need to ensure valid photo identification and authorization to work in the U.S. is maintained in the provider file. Local offices subsequently remediated the exceptions.</li> </ul>	
			<ul> <li>By July 2020, the Department will develop processes to:</li> <li>Adjust the provider risk level when the overpayment threshold is met or if there is a Medicaid fraud referral.</li> <li>Conduct fingerprint-based criminal background checks for high-risk providers.</li> </ul>	
			The Department anticipates the finding will be resolved once all existing contracts are renewed through the automated provider screening process.
