11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

12 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted
13 and, subject to the provisions set forth in this act, the several
14 dollar amounts hereinafter specified, or so much thereof as shall be
15 sufficient to accomplish the purposes designated, are hereby
16 appropriated and authorized to be incurred for capital projects
17 during the period beginning with the effective date of this act and
18 ending June 30, 2027, out of the several funds specified in this act.

19 (2) The definitions in this subsection apply throughout this act
20 unless the context clearly requires otherwise.

1 (a) "Fiscal year 2026" or "FY 2026" means the period beginning
2 July 1, 2025, and ending June 30, 2026.

3 (b) "Fiscal year 2027" or "FY 2027" means the period beginning
4 July 1, 2026, and ending June 30, 2027.

5 (c) "Lapse" or "revert" means the amount shall return to an
6 unappropriated status.

7 (d) "Provided solely" means the specified amount may be spent
8 only for the specified purpose.

9 (3) Unless otherwise specifically authorized in this act, any
10 portion of an amount provided solely for a specified purpose that is
11 not expended subject to the specified conditions and limitations to
12 fulfill the specified purpose shall lapse.

13 (4) The amounts shown under the headings "Prior Biennia," "Future
14 Biennia," and "Total" in this act are for informational purposes only
15 and do not constitute legislative approval of these amounts. "Prior
16 biennia" typically refers to the immediate prior biennium for
17 reappropriations, but may refer to multiple biennia in the case of
18 specific projects. A "future biennia" amount is an estimate of what
19 may be appropriated for the project or program in the 2027-2029
20 biennium and the following three biennia; an amount of zero does not
21 necessarily constitute legislative intent to not provide funding for
22 the project or program in the future.

23 (5) "Reappropriations" in this act are appropriations and, unless
24 the context clearly provides otherwise, are subject to the relevant
25 conditions and limitations applicable to appropriations.
26 Reappropriations shall be limited to the unexpended balances
27 remaining on June 30, 2025, from the 2023-2025 biennial
28 appropriations for each project.

14 county human services. The amounts provided in this section may be
15 used for construction and equipment costs associated with
16 establishment or preservation of the facilities. The department may
17 approve funding for the acquisition of a facility if the project will
18 result in increased behavioral health capacity. Amounts provided in
19 this section may not be used for operating costs associated with the
20 treatment of patients using these services.

21 (2) The department must establish criteria for the issuance of
22 the grants, which must include:

23 (a) Evidence that the application was developed in collaboration
24 with one or more regional behavioral health entities that administer
25 the purchasing of services;

26 (b) Evidence that the applicant has assessed and would meet gaps
27 in the geographical availability of behavioral health services in
28 their region;

29 (c) Evidence that the applicant is able to meet applicable
30 licensing and certification requirements in the facility that will be
31 used to provide services;

32 (d) A commitment by applicants to serve persons who are publicly
33 funded and persons detained for involuntary commitment under chapter
34 71.05 RCW;

35 (e) A commitment by the applicant to maintain and operate the
36 beds or facility for a time period commensurate to the state
37 investment, but for at least a 10-year period;

1 (f) The date upon which structural modifications or construction
2 would begin and the anticipated date of completion of the project;

3 (g) A detailed estimate of the costs associated with opening the
4 beds;

5 (h) A financial plan demonstrating the applicant's ability to
6 maintain and operate the facility; and

7 (i) The applicant's commitment to work with local courts and
8 prosecutors to ensure that prosecutors and courts in the area served
9 by the hospital or facility will be available to conduct involuntary
10 commitment hearings and proceedings under chapter 71.05 RCW.

11 (3) In awarding funding for projects in subsection (6) of this
12 section, the department, in consultation with the advisory group
13 established in subsection (1) of this section, must strive for
14 geographic distribution and to allocate funding based on population
15 and service needs of an area. The department must consider current
16 services available, anticipated services available based on projects
17 underway, and the service delivery needs of an area.

18 (4) The department must prioritize projects that increase
19 capacity in unserved and underserved areas of the state.

20 (5) \$10,000,000 of the state building construction account—state
21 appropriation in this section is provided solely for one 16-bed
22 crisis triage and stabilization facility in the King county region
23 consistent with the settlement agreement in *A.B., by and through*
24 *Trueblood, et al., v. DSHS, et al.*, No. 15-35462, and that are not
25 subject to federal funding restrictions that apply to institutions of
26 mental disease.

27 (6) \$65,000,000 of the state building construction account—state
28 appropriation in this section is provided solely for competitive
29 community behavioral health grants to address the regional needs
30 listed and is subject to the criteria in subsections (1), (2), (3),
31 and (4) of this section:

32 (a) Crisis relief centers and stabilization facilities that offer
33 access to mental health and substance use care for no more than 23
34 hours and 59 minutes per patient, at a time, and are not subject to
35 federal funding restrictions that apply to institutions of mental
36 diseases;

37 (b) Mental health peer respite centers that are not subject to
38 federal funding restrictions that apply to institutions of mental
39 diseases. No more than one mental health peer respite center should
40 be funded in each of the 10 regions;

1 (c) Grants to community providers to increase long-term intensive
2 inpatient psychiatric treatment services and capacity for children
3 and minor youth including, but not limited to, services for substance
4 use disorder treatment, sexual assault and traumatic stress, anxiety,
5 or depression, and interventions for children exhibiting aggressive
6 or depressive behaviors in facilities that are not subject to federal
7 funding restrictions;

8 (d) Grants to community hospitals, freestanding evaluation and
9 treatment providers, or freestanding psychiatric hospitals to develop
10 capacity for beds to serve individuals on 90-day or 180-day civil
11 commitments as an alternative to treatment in the state hospitals. In
12 awarding this funding, the department must coordinate with the
13 department of social and health services, the health care authority,
14 and the department of health and must only select facilities that
15 meet the following conditions:

16 (i) The funding must be used to increase capacity related to
17 serving individuals who will be transitioned from or diverted from
18 the state hospitals;

19 (ii) The facility is not subject to federal funding restrictions
20 that apply to institutions of mental diseases;

21 (iii) The provider has submitted a proposal for operating the
22 facility to the health care authority;

23 (iv) The provider has demonstrated to the department of health
24 and the health care authority that it is able to meet the applicable
25 licensing and certification requirements for the facility that will
26 be used to provide services; and

27 (v) The health care authority has confirmed that it intends to
28 contract with the facility for operating costs within funds provided
29 in the operating budget for these purposes;

30 (e) Enhanced adult residential care facilities for long-term
31 dementia placements discharged or diverted from the state psychiatric
32 hospitals and are not subject to federal funding restrictions that
33 apply to institutions of mental diseases;

34 (f) Facilities that provide substance use disorder intervention,
35 assessment, and treatment services with secure withdrawal management
36 and stabilization treatment beds that are not subject to federal
37 funding restrictions that apply to institutions of mental diseases;
38 and

39 (g) Health engagement hubs where behavioral health supportive
40 services, such as harm reduction and physical health services, are

1 offered within the same facility as behavioral health services and
2 that are not subject to federal funding restrictions that apply to
3 institutions of mental diseases.

4 (7) The amounts provided in this subsection are subject to the
5 criteria in subsection (1) of this section, except the projects are
6 not required to establish new capacity. \$5,000,000 of the state
7 building construction account—state appropriation in this section is
8 provided solely for grants to community providers to prevent the
9 closure of existing behavioral health facilities. For purposes of
10 this subsection (7), the department must implement necessary
11 procedures to enable rapid commitment of funds on a first-come,
12 first-served basis to qualifying project proposals that satisfy the
13 goal of long-term preservation of behavioral health facilities.

14 (8) \$27,000,000 of the appropriation in this section is provided
15 solely for the following list of projects:

- 16 Evergreen Treatment Services (Seattle). \$7,000,000
- 17 Suquamish Opioid Treatment Program (Kitsap County). . . \$20,000,000

18 (9) The department shall notify all applicants that they may be
19 required to have a construction review performed by the department of
20 health.

21 (10) To accommodate the emergent need for behavioral health
22 services, the department and the department of health, in
23 collaboration with the health care authority and the department of
24 social and health services, must establish a concurrent and expedited
25 process to assist grant applicants in meeting any applicable
26 regulatory requirements necessary to operate inpatient psychiatric
27 beds, freestanding evaluation and treatment facilities, enhanced
28 services facilities, triage facilities, crisis stabilization
29 facilities, or secure detoxification/secure withdrawal management and
30 stabilization facilities.

31 (11) The department must strive to allocate all of the amounts
32 provided in this section in the manner prescribed in each subsection.
33 However, if upon review of applications, the department determines,
34 in consultation with the advisory group established in subsection (1)
35 of this section, that there are not adequate suitable projects in a
36 category, the department may allocate funding to other project
37 categories listed in this section, prioritizing projects that support
38 serving individuals who will be transitioned from or diverted from
39 the state hospitals. Underserved areas of the state may also be
40 considered.

1 (12) In contracts for grants authorized under this section, the
2 department must include provisions that require that the grantee or
3 successor hold the capital improvements for at least a 10-year
4 period. The provisions must require the facility to be used for
5 behavioral health services, but may allow the facility to change
6 ownership or facility type during the commitment period. The
7 department shall monitor the activities of recipients of grants under
8 this program to determine compliance with the terms and conditions
9 set forth in its contract.

10 (13) The department must provide a progress report to the
11 appropriate committees of the legislature by November 1, 2026. The
12 report must include:

13 (a) The total number of applications and amount of funding
14 requested;

15 (b) A list and description of the projects approved for funding
16 including state funding, total project cost, services anticipated to
17 be provided, bed capacity, and anticipated completion date;

18 (c) A statewide map of new capacity since 2018, including
19 projected bed capacity and opening dates;

20 (d) A status report of projects that received funding in prior
21 funding rounds, including details about the project completion and
22 the date the facility began providing services; and

23 (e) Recommendations for statutory language that would codify the
24 grant program on an ongoing basis including:

25 (i) Evaluation and prioritization criteria;

26 (ii) Monitoring and compliance requirements;

27 (iii) Preconstruction and technical assistance services; and

28 (iv) Data needed to determine the service needs by area of the
29 state.

30 (14) The department must coordinate with the health care
31 authority to submit capital budget requests to fund behavioral health
32 community capacity grants for the 2027-2029 biennial budget by the
33 due date established by the office of financial management.
34 Associated state budget operating costs must also be identified and
35 requested.

36 2025-27 Energy Retrofits for Public Buildings Grants (40000670)

37 The appropriation in this section is subject to the following
38 conditions and limitations:

1 (1) \$17,500,000 of the appropriation in this section is provided
2 solely for grants to local governments, public higher education
3 institutions, school districts, tribal governments, and state
4 agencies for facility improvements and related projects that result
5 in energy and operational cost savings.

6 (a) At least 20 percent of each competitive grant round is
7 designated for awards to eligible projects in small cities or towns
8 with a population of 5,000 or fewer residents.

9 (b) In each competitive round, a higher energy savings to
10 investment ratio must result in a higher project ranking. Priority
11 consideration must be given to applicants that have not received
12 grant awards for this purpose in prior biennia.

13 (c) The department must determine a minimum match ratio to
14 maximize the leverage of nonstate funds.

15 (2) \$5,000,000 of the appropriation in this section is provided
16 solely for energy efficiency and environmental performance
17 improvements to minor works, stand-alone, and emergency projects at
18 facilities owned by state agencies that repair or replace existing
19 building systems and reduce greenhouse gas emissions from state
20 operations, including, but not limited to, HVAC, lighting,
21 insulation, windows, and other mechanical systems. Eligibility for
22 this funding is dependent on an analysis using the office of
23 financial management's life-cycle cost tool that compares project
24 design alternatives for initial and long-term cost-effectiveness.
25 Assuming a reasonable return on investment, the department shall
26 provide grants in the amount required to improve the project's energy
27 efficiency compared to the original project request.

28 (3) The department shall develop metrics that indicate the
29 performance of energy efficiency efforts.

30 (4) If a grant is provided in subsection (1) or (2) of this
31 section to purchase heating devices or systems, the agency must,
32 whenever possible and most cost effective, select devices and systems
33 that do not use fossil fuels.

34 (5) Grants provided in subsections (1) and (2) of this section to
35 state agencies are exempt from the match requirements in this
36 section.

37 Appropriation:

38 State Building Construction Account—State.	\$22,500,000

4 2025-27 Weatherization Plus Health Grants (40000671)

5 The appropriations in this section are subject to the following
6 conditions and limitations:

7 (1) \$5,000,000 of the state building construction account—state
8 appropriation in this section is provided solely for grants for the
9 Washington State University energy extension community energy
10 efficiency program (CEEP) to support homeowners, tenants, and small
11 business owners in making sound energy efficiency investments by
12 providing consumer education and marketing, workforce support through
13 training and lead generation, and direct consumer incentives for
14 upgrades to existing homes and small commercial buildings. This is
15 the maximum amount the department may expend for this purpose.

16 (2) The department must, to the extent practicable, implement the
17 recommendations in the weatherization plus health 2022 report.

18 (3) If funding from these appropriations is used to purchase
19 heating devices or systems, the agency shall, whenever possible and
20 most cost effective, select devices and systems that do not use
21 fossil fuels.

22 (4) The department must:

23 (a) Recruit community energy efficiency program sponsors that are
24 community-based organizations located in geographic areas of the
25 state that have not received funding for low-income weatherization
26 programs, targeting hard-to-reach market segments;

27 (b) Leverage funding from community energy efficiency program
28 sponsors in an amount greater than or equal to the amount provided by
29 the state through the weatherization program;

30 (c) Ensure that community energy efficiency program utility
31 sponsors work with nonprofit community-based organizations to deliver
32 community energy efficiency program services; and

33 (d) Identify community energy efficiency program sponsors that
34 support the conversion of space and water heating from fossil fuels
35 to electricity, as part of a set of energy efficiency investments.

17 (1) Except as provided in subsection (10) of this section, the
18 appropriation in this section is provided solely for grants for the
19 development of community electric vehicle charging infrastructure.

20 (2) Funding provided in this section must be used for projects
21 that provide a benefit to the public through development,
22 demonstration, and deployment of clean energy technologies that save
23 energy and reduce energy costs, reduce harmful air emissions, or
24 increase energy independence for the state.

25 (3) Projects that receive funding under this section must be
26 implemented by, or include partners from, one or more of the
27 following: Local governments, federally recognized tribal
28 governments, or public and private electrical utilities that serve
29 retail customers in the state.

30 (4) Grant funding must be used for level two or higher charging
31 infrastructure and related costs including, but not limited to,
32 construction and site improvements. Projects may include a robust
33 public and private outreach plan that includes engaging with affected
34 parties in conjunction with the new electric vehicle infrastructure.

7 (6) The department must coordinate with other electrification
 8 programs, including projects developed by the department of
 9 transportation, to determine the most effective distribution of the
 10 systems. The department must also collaborate with the interagency
 11 electric vehicle coordinating council established in RCW 43.392.030
 12 to implement this section and must work to meet benchmarks
 13 established in chapter 182, Laws of 2022.

14 (7) The department may:

15 (a) Provide information to applicants about available clean
 16 energy tax credits and incentives, including elective pay, that may
 17 be applicable to the project for which state funding is being sought;

18 (b) Inquire, as part of the application, which tax credits and
 19 incentives the applicant plans to seek for the project;

20 (c) Prioritize projects seeking any applicable clean energy tax
 21 credits and incentives when developing and applying competitive
 22 criteria for selecting recipients under this section; and

23 (d) Consider the availability of any federal tax credits or other
 24 federal or nonfederal grants or incentives that the applicant may
 25 benefit from in review of the application.

26 (8) Funding awards made under this section may not exceed 100
 27 percent of the cost of the project.

28 (9) Up to three percent of the appropriation in this section is
 29 for the department to administer the grant program.

30 (10) \$3,000,000 of the appropriation in this section is provided
 31 solely for the Cowlitz MHD ZEV Depot in Longview.

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation in this section is provided solely for competitive grants to eligible entities for predevelopment, design, and construction of projects that provide a public benefit through research, development, demonstration, or deployment of clean energy technologies that save energy and reduce energy costs, reduce harmful air emissions, or increase energy independence for the state. Priority must be given to projects that benefit vulnerable populations and overburdened communities, including tribes.

(2) Entities eligible for grant funding under this section include local governments, federally recognized tribal governments and tribes' contracted service providers, public and private utilities that serve retail customers in the state, for-profit entities, research institutions, nonprofit organizations, and state agencies.

7 justice when developing the program structure and opportunities for
8 applicant participation.

9 (5) When soliciting and evaluating proposals, awarding contracts,
10 and monitoring projects under this section, the department must:

12 contracting processes, are used to select all projects;

13 (b) Ensure that a public benefit results from the use of public
14 funds through due diligence and monitoring of contracted projects,
15 including ensuring compliance with all applicable laws related to the
16 project selection process, project monitoring, and contracting; and

17 (c) Prioritize projects for funding that leverage the greatest
18 amount of matching funds, such as local levy funding.

19 (6)(a) The department must require project applicants to:

20 (i) Disclose all sources of public funding invested in a project;
21 and

22 (ii) Identify by name any former or current state of Washington

3 funding under the program created in this section would be primarily
4 targeted. The prioritization must be informed by, consistent with,
5 and aligned with one or more of the following: Watershed plans
6 developed pursuant to chapter 90.82 RCW; the action agenda developed
7 under RCW 90.71.260; regional recovery plans created under RCW
8 77.85.090; the habitat project lists developed pursuant to RCW
9 77.85.050; the prioritization process developed under RCW 77.95.160;
10 priority projects identified for salmon recovery through agency grant
11 programs; or another watershed-based strategy that is consistent
12 with, and aligned with the recommendations and implementation
13 proposals provided by the riparian task force convened pursuant to
14 section 117(3), chapter 475, Laws of 2023.

15 (b) The prioritization of critical riparian management projects
16 must be developed in coordination with:

17 (i) Local federally recognized tribes;

18 (ii) Local private landowners who are voluntarily participating
19 in the program;

20 (iii) Local conservation districts; and

21 (iv) The local county, the department of fish and wildlife, the
22 department of ecology, and water resource inventory area planning
23 units organized pursuant to chapter 90.82 RCW.

24 (4) Conditions for awarding funding for projects under this
25 program include, but are not limited to:

26 (a) Consistency with the program criteria and finalized grant
27 guidelines established under subsection (2) of this section;

28 (b) Tiered incentive rates tied to improving functionality for
29 riparian areas that provide more than proportionally higher landowner
30 incentive payments for projects that establish the maximum achievable
31 buffer widths; and

32 (c) Other requirements as determined by the commission.

33 (5) The commission must distribute riparian grant program funding
34 equitably throughout the state, consistent with received grant
35 applications and benefit to salmon habitat. Funding is intended
36 primarily for projects located in salmon recovery regions, as defined
37 in RCW 77.85.010, but funding may also be distributed to a project
38 not located in a salmon recovery region upon a determination by the
39 commission that the project will provide a unique benefit to salmon
40 habitat.

1 (6) Allowable expenses to a grantee receiving funds under this
2 section include, but are not limited to, labor, equipment, fencing,
3 mulch, seed, seedling trees, manual weed control, and yearly
4 maintenance costs for up to 10 years.

5 (7) Any native woody trees and shrubs planted with funding
6 provided under this section must be maintained for a minimum of five
7 years or as otherwise set by the commission for each grantee.
8 Vegetation must be chosen to prevent invasive weed populations and
9 ensure survival and successful establishment of plantings.

10 (8) The commission shall determine appropriate recordkeeping and
11 data collection procedures required for program implementation and
12 shall establish a data management system that allows for coordination
13 between the commission and other state agencies. Any data collected
14 or shared under this section may be used only to assess the successes
15 of the riparian grant program in improving the functions of critical
16 riparian habitat.

17 (9) The commission shall develop and implement a framework that
18 includes monitoring, adaptive management, and metrics in order to
19 ensure consistency with the requirements of the riparian grant
20 program. The monitoring and adaptive management framework may
21 include, but is not limited to, consideration of:

22 (a) Acres identified as eligible for restoration within a
23 watershed;

24 (b) Acres planned to be restored;

25 (c) Acres actually planted and maintained;

26 (d) Success in targeting and achieving aggregated project
27 implementation resulting in an increase in linear miles restored;

28 (e) Plan review criteria; and

29 (f) Other similar factors as identified by the commission.

30 (10) The commission may use up to two percent of any amounts
31 appropriated in this section for targeted outreach activities that
32 focus on critically identified geographic locations for listed salmon
33 species.

34 (11) The commission may use up to four percent of amounts
35 appropriated in this section for administrative expenses.

36 (12) For the purposes of this section, "critical riparian
37 management zone" means the area adjacent to freshwaters, wetlands,
38 and marine waters that has been locally or regionally identified as
39 an area where salmon recovery efforts would significantly benefit
40 from enhanced protection or restoration.

4 Carbon Sequestration Forest (40000707)

5 The appropriation in this section is subject to the following
6 conditions and limitations:

7 (1)(a) \$3,000,000 of this appropriation is provided solely to
8 acquire working forestlands in Wahkiakum county to be managed for
9 increased carbon sequestration and carbon storage through sustainable
10 timber harvests. Any land purchased must be managed under the
11 department's habitat conservation plan and policy for sustainable
12 forests. Pursuant to (b) of this subsection, it is the intent of the
13 legislature that these lands serve as replacement land for
14 structurally complex, carbon-dense forestlands designated for
15 conservation and for existing encumbered state forestlands. Once
16 purchased, the lands must be part of the land bank created in RCW
17 79.19.020. The property must be purchased before the transfer of any
18 existing trust land is fully executed.

19 (b) If the department acquires land pursuant to this subsection
20 (1), it must use the lands acquired for the following purposes: (i)
21 For the permanent conservation of structurally complex, carbon-dense
22 forestland and (ii) as replacement state forestlands to replace
23 existing encumbered state forestlands in Clallam, Pacific, Skamania,
24 and Wahkiakum counties.

25 (c) The department must designate any lands acquired related to
26 (b)(ii) of this subsection as state forest transfer lands.

27 (d) If the department acquires any replacement lands pursuant to
28 this section, it must take the following actions: (i) Designate the
29 lands acquired for management under the department's habitat
30 conservation plan and policy for sustainable forests; (ii) ensure
31 that any acquisition pursuant to this section complies with the
32 allowable purposes of RCW 70A.65.270; and (iii) ensure that any
33 replacement of structurally complex, carbon-dense forested trust land
34 pursuant to (b)(i) of this subsection be of equal value to the land
35 conserved and that replacement land is purchased before the transfer
36 is fully executed.

37 (e) Before conserving any forestland pursuant to (a)(i) of this
38 subsection, the department must receive letters nominating specific

1 parcels issued by the legislative authority of the county in which
2 the forestland is located and the approval of the conservation parcel
3 boundaries by the board of natural resources. County parcel
4 nomination and board approval pursuant to this process must be
5 finalized prior to the transfer of the forestland pursuant to this
6 subsection.

7 (f) The department may designate the structurally complex,
8 carbon-dense forested trust land identified in (a)(i) of this
9 subsection as a natural area preserve or a natural resource
10 conservation area notwithstanding the requirements of chapter 79.70
11 and 79.71 RCW.

12 (g) The legislative authority of the county from which the real
13 property was transferred pursuant to (a)(i) of this subsection may
14 not request that the department distribute a percentage of the
15 proceeds associated with the valuable materials to the legislative
16 authority of the county from which the real property was transferred.
17 Before conserving any forestland pursuant to (a)(i) of this
18 subsection, the legislative body of the county must request in
19 writing to participate in a land pool in accordance with RCW
20 79.22.140.

21 (h) The department may use up to \$500,000 of the total
22 appropriation in this section for its administrative costs pursuant
23 to this section.

24 (2) \$2,000,000 of the appropriation is provided solely for the
25 department to implement climate-smart forest management strategies to
26 enhance carbon storage as well as conservation of carbon-dense,
27 structurally complex mature forests, support timber production and
28 implement the requirements of the department's multispecies habitat
29 conservation plan for state trust lands.

1 **PART 8**

2 **MISCELLANEOUS PROVISIONS**

3 NEW SECTION. **Sec. 8001.** RCW 43.88.031 requires the disclosure
4 of the estimated debt service costs associated with new capital bond
5 appropriations. The estimated debt service costs for the
6 appropriations contained in this act are \$72,885,731 for the
7 2025-2027 biennium, \$415,019,779 for the 2027-2029 biennium, and
8 \$605,041,075 for the 2029-2031 biennium.

9 NEW SECTION. **Sec. 8002.** ACQUISITION OF PROPERTIES AND
10 FACILITIES THROUGH FINANCIAL CONTRACTS. (1) The following agencies
11 may enter into financial contracts, paid from any funds of an agency,
12 appropriated or nonappropriated, for the purposes indicated and in
13 not more than the principal amounts indicated, plus financing
14 expenses and required reserves pursuant to chapter 39.94 RCW. When
15 securing properties under this section, agencies shall use the most
16 economical financial contract option available, including long-term
17 leases, lease-purchase agreements, lease-development with option to
18 purchase agreements or financial contracts using certificates of
19 participation. Expenditures made by an agency for one of the
20 indicated purposes before the issue date of the authorized financial
21 contract and any certificates of participation therein are intended
22 to be reimbursed from proceeds of the financial contract and any
23 certificates of participation therein to the extent provided in the
24 agency's financing plan approved by the state finance committee.

25 (2) Those noninstructional facilities of higher education
26 institutions authorized in this section to enter into financial
27 contracts are not eligible for state funded maintenance and
28 operations. Instructional space that is available for regularly
29 scheduled classes for academic transfer, basic skills, and workforce
30 training programs may be eligible for state funded maintenance and
31 operations.

32 (3) Western Washington University: Enter into a financing
33 contract for up to \$3,000,000 plus financing expenses, required
34 reserves, and capitalized interest pursuant to chapter 39.94 RCW to
35 construct a parking lot replacement.

36 (4) Community and technical colleges:

37 (a) Enter into a financing contract on behalf of Columbia Basin
38 College for up to \$18,000,000 plus financing expenses, required

1 reserves, and capitalized interest pursuant to chapter 39.94 RCW to
2 construct student housing.

3 (b) Enter into a financing contract on behalf of Edmonds College
4 for up to \$9,000,000 plus financing expenses, required reserves, and
5 capitalized interest pursuant to chapter 39.94 RCW to construct
6 student housing.

7 (c) Enter into a financing contract on behalf of Clover Park
8 Technical College for up to \$15,000,000 plus financing expenses,
9 required reserves, and capitalized interest pursuant to chapter 39.94
10 RCW to construct an eastside training facility.

11 NEW SECTION. **Sec. 8003.** (1) To ensure that major construction
12 projects are carried out in accordance with legislative and executive
13 intent, agencies must complete a predesign for state construction
14 projects with a total anticipated cost in excess of \$10,000,000. For
15 purposes of this section, "total anticipated cost" means the sum of
16 the anticipated cost of the predesign, design, and construction
17 phases of the project.

18 (2) Appropriations for design may not be expended or encumbered
19 until the office of financial management has reviewed and approved
20 the agency's predesign.

21 (3) The predesign must explore at least three project
22 alternatives. These alternatives must be both distinctly different
23 and viable solutions to the issue being addressed. The chosen
24 alternative should be the most reasonable and cost-effective
25 solution. The predesign document must include, but not be limited to,
26 program, site, and cost analysis, and an analysis of the life-cycle
27 costs of the alternatives explored, in accordance with the predesign
28 manual adopted by the office of financial management.

29 (4) For projects exceeding the \$10,000,000 predesign threshold
30 established in this section, the office of financial management may
31 make an exception to some or all of the predesign requirements in
32 this section. The office of financial management shall report any
33 exception to the fiscal committees of the legislature:

34 (a) A description of the major capital project for which the
35 predesign waiver is made;

36 (b) An explanation of the reason for the waiver; and

37 (c) A rough order of magnitude cost estimate for the project's
38 design and construction.

1 (5) In deliberations related to submitting an exception under
2 this section, the office of financial management shall consider the
3 following factors:

4 (a) Whether there is any determination to be made regarding the
5 site of the project;

6 (b) Whether there is any determination to be made regarding
7 whether the project will involve renovation, new construction, or
8 both;

9 (c) Whether, within six years of submitting the request for
10 funding, the agency has completed, or initiated the construction of,
11 a substantially similar project;

12 (d) Whether there is any anticipated change to the project's
13 program or the services to be delivered at the facility;

14 (e) Whether the requesting agency indicates that the project may
15 not require some or all of the predesign requirements in this section
16 due to a lack of complexity; and

17 (f) Whether any other factors related to project complexity or
18 risk, as determined by the office of financial management, could
19 reduce the need for, or scope of, a predesign.

20 (6) If under this section, some or all predesign requirements are
21 waived, the office of financial management may instead propose a
22 professional project cost estimate instead of a request for predesign
23 funding.

24 NEW SECTION. **Sec. 8004.** (1) The legislature finds that use of
25 life-cycle cost analysis will aid public entities, architects,
26 engineers, and contractors in making design and construction
27 decisions that positively impact both the initial construction cost
28 and the ongoing operating and maintenance cost of a project. To
29 ensure that the total cost of a project is accounted for and the most
30 reasonable and cost efficient design is used, agencies shall develop
31 life-cycle costs for any construction project over \$10,000,000. The
32 life-cycle costs must represent the present value sum of capital
33 costs, installation costs, operating costs, and maintenance costs
34 over the life expectancy of the project. The legislature further
35 finds the most effective approach to the life-cycle cost analysis is
36 to integrate it into the early part of the design process.

37 (2) Agencies must develop a minimum of three project alternatives
38 for use in the life-cycle cost analysis. These alternatives must be
39 both distinctly different and viable solutions to the issue being

1 addressed. Agencies must choose the most reasonable and cost-
2 effective solution, as supported by the life-cycle cost analysis. A
3 brief description of each project alternative and why it was chosen
4 must be included in the life-cycle cost analysis section of the
5 predesign.

6 (3) The office of financial management shall: (a) Make available
7 a life-cycle cost model to be used for analysis; (b) in consultation
8 with the department of enterprise services, provide assistance in
9 using the life-cycle cost model; and (c) update the life-cycle cost
10 model annually including assumptions for inflation rates, discount
11 rates, and energy rates.

12 (4) Agencies shall consider architectural and engineering firms'
13 and general contractors' experience using life-cycle costs, operating
14 costs, and energy efficiency measures when selecting an architectural
15 and engineering firm, or when selecting contractors using alternative
16 contracting methods.

17 NEW SECTION. **Sec. 8005.** Agencies administering construction
18 projects with a total anticipated cost in excess of \$10,000,000 must
19 submit progress reports to the office of financial management and to
20 the fiscal committees of the house of representatives and senate.
21 "Total anticipated cost" means the sum of the anticipated cost of the
22 predesign, design, and construction phases of the project. Reports
23 must be submitted on July 1st and December 31st of each year in a
24 format determined by the office of financial management. After the
25 project is completed, agencies must also submit a closeout report
26 that identifies the total project cost and any unspent
27 appropriations.

28 NEW SECTION. **Sec. 8006.** (1) Allotments for appropriations in
29 this act shall be provided in accordance with the capital project
30 review requirements adopted by the office of financial management and
31 in compliance with RCW 43.88.110. Projects that will be employing
32 alternative public works construction procedures under chapter 39.10
33 RCW are subject to the allotment procedures defined in this section
34 and RCW 43.88.110.

35 (2) Each project is defined as proposed in the legislative budget
36 notes or in the governor's budget document.

1 NEW SECTION. **Sec. 8007.** (1) The office of financial management
2 may authorize a transfer of appropriation authority provided for a
3 capital project that is in excess of the amount required for the
4 completion of such project to another capital project for which the
5 appropriation is insufficient. No such transfer may be used to expand
6 the capacity of any facility beyond that intended in making the
7 appropriation. Such transfers may be effected only between capital
8 appropriations to a specific department, commission, agency, or
9 institution of higher education and only between capital projects
10 that are funded from the same fund or account. No transfers may occur
11 between projects to local government agencies except where the grants
12 are provided within a single omnibus appropriation and where such
13 transfers are specifically authorized by the implementing statutes
14 that govern the grants.

15 (2) The office of financial management may find that an amount is
16 in excess of the amount required for the completion of a project only
17 if: (a) The project as defined in the notes to the budget document is
18 substantially complete and there are funds remaining; or (b) bids
19 have been let on a project and it appears to a substantial certainty
20 that the project as defined in the notes to the budget document can
21 be completed within the biennium for less than the amount
22 appropriated in this act.

23 (3) For the purposes of this section, the intent is that each
24 project be defined as proposed to the legislature in the governor's
25 budget document, unless it clearly appears from the legislative
26 history that the legislature intended to define the scope of a
27 project in a different way.

28 (4) A report of any transfer effected under this section, except
29 emergency projects or any transfer under \$250,000, shall be filed
30 with the fiscal committees of the legislature by the office of
31 financial management at least 30 days before the date the transfer is
32 effected. The office of financial management shall report all
33 emergency or smaller transfers within 30 days from the date of
34 transfer.

35 NEW SECTION. **Sec. 8008.** (1) It is expected that projects be
36 ready to proceed in a timely manner depending on the type or phase of
37 the project or program that is the subject of the appropriation in
38 this act. Except for major projects that customarily may take more
39 than two biennia to complete from predesign to the end of

1 construction, or large infrastructure grant or loan programs
2 supporting projects that often take more than two biennia to
3 complete, the legislature generally does not intend to reappropriate
4 funds more than once, particularly for smaller grant programs, local/
5 community projects, and minor works.

6 (2) Agencies shall expedite the expenditure of reappropriations
7 and appropriations in this act in order to: (a) Rehabilitate
8 infrastructure resources; (b) accelerate environmental rehabilitation
9 and restoration projects for the improvement of the state's natural
10 environment; (c) reduce additional costs associated with acquisition
11 and construction inflationary pressures; and (d) provide additional
12 employment opportunities associated with capital expenditures.

13 (3) To the extent feasible, agencies are directed to accelerate
14 expenditure rates at their current level of permanent employees and
15 shall use contracted design and construction services wherever
16 necessary to meet the goals of this section.

17 NEW SECTION. **Sec. 8009.** Any building project that receives over
18 \$10,000,000 in funding from the capital budget must be built to
19 sustainable standards. "Sustainable building" means a building that
20 integrates and optimizes all major high-performance building
21 attributes, including energy efficiency, durability, life-cycle
22 performance, and occupant productivity, and minimizes greenhouse gas
23 emissions. The following design and construction attributes must be
24 integrated into the building project:

25 (1) **Employ integrated design principles:** Use a collaborative,
26 integrated planning and design process that initiates and maintains
27 an integrated project team in all stages of a project's planning and
28 delivery. Establish performance goals for siting, energy, water,
29 materials, and indoor environmental quality along with other
30 comprehensive design goals and ensures incorporation of these goals
31 throughout the design and life-cycle of the building. Consider all
32 stages of the building's life-cycle, including deconstruction.

33 (2) **Commissioning:** Employ commissioning practices tailored to the
34 size and complexity of the building and its system components in
35 order to verify performance of building components and systems and
36 help ensure that design requirements are met. This should include an
37 experienced commissioning provider, inclusion of commissioning
38 requirements in construction documents, a commissioning plan,

1 verification of the installation and performance of systems to be
2 commissioned, and a commissioning report.

3 (3) Optimize energy performance: Establish a whole building
4 performance target that takes into account the intended use,
5 occupancy, operations, plug loads, other energy demands, and design
6 to earn the ENERGY STAR targets for new construction and major
7 renovation where applicable. For new construction target low energy
8 use index. For major renovations, target reducing energy use by 50
9 percent below preretrofit baseline.

10 (4) On-site renewable energy: Implement renewable energy
11 generation projects on agency property for agency use, when life-
12 cycle cost effective.

13 (5) High-efficiency electric equipment: Use only high-efficiency
14 electric equipment for water and space heating needs not met through
15 on-site renewable energy, when life-cycle cost effective.

16 (6) Measurement and verification: For buildings over 50,000
17 square feet, install building level electricity meters in new major
18 construction and renovation projects to track and continuously
19 optimize performance. Include equivalent meters for natural gas and
20 steam, where natural gas and steam are used. Where appropriate,
21 install dashboards inside buildings to display and incentivize
22 occupants on energy use.

23 (7) Benchmarking: Compare performance data from the first year of
24 operation with the energy design target. Verify that the building
25 performance meets or exceeds the design target. For other building
26 and space types, use an equivalent benchmarking tool.

27 NEW SECTION. **Sec. 8010.** State agencies, including institutions
28 of higher education, shall allot and report full-time equivalent
29 staff for capital projects in a manner comparable to staff reporting
30 for operating expenditures.

31 NEW SECTION. **Sec. 8011.** Executive Order No. 21-02,
32 archaeological and cultural resources, was issued effective April 7,
33 2021. Agencies shall comply with the requirements set forth in this
34 executive order and must consult with the department of archaeology
35 and historic preservation and affected tribes on the potential
36 effects of projects on cultural resources and historic properties
37 proposed in state-funded construction or acquisition projects,
38 including grant or pass-through funding that culminates in

1 construction or land acquisitions. Consultation with the department
2 of archaeology and historic preservation and affected tribes must be
3 initiated early in the project planning process, prior to
4 construction or taking title.

5 NEW SECTION. **Sec. 8012.** FOR THE ARTS COMMISSION—ART WORK
6 ALLOWANCE. (1) One-half of one percent of moneys appropriated in this
7 act for original construction of school plant facilities is provided
8 solely for the purposes of RCW 28A.335.210.

9 (2) One-half of one percent of moneys appropriated in this act
10 for original construction or any major renovation or remodel work
11 exceeding \$200,000 by colleges or universities is provided solely for
12 the purposes of RCW 28B.10.027.

13 (3) One-half of one percent of moneys appropriated in this act
14 for original construction of any public building by a state agency
15 identified in RCW 43.17.200 is provided solely for the purposes of
16 RCW 43.17.200.

17 (4) At least 75 percent of the moneys spent by the Washington
18 state arts commission during the 2025-2027 fiscal biennium for the
19 purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be
20 expended solely for direct acquisition of works of art; 20 percent
21 may be expended for program administration; and 5 percent may be
22 expended to conserve or maintain existing pieces in the state art
23 collection.

24 NEW SECTION. **Sec. 8013.** To carry out the provisions of this
25 act, the governor may assign responsibility for predesign, design,
26 construction, and other related activities to any appropriate agency.

27 NEW SECTION. **Sec. 8014.** If any federal moneys appropriated by
28 this act for capital projects are not received by the state, the
29 department or agency to which the moneys were appropriated may
30 replace the federal moneys with funds available from private or local
31 sources. No replacement may occur under this section without the
32 prior approval of the director of financial management in
33 consultation with the senate ways and means committee and the house
34 of representatives capital budget committee.

35 NEW SECTION. **Sec. 8015.** (1) Unless otherwise stated, for all
36 appropriations under this act that require a match of nonstate money

1 or in-kind contributions, the following requirement, consistent with
2 RCW 43.88.150, shall apply: Expenditures of state money shall be
3 timed so that the state share of project expenditures never exceeds
4 the intended state share of total project costs.

5 (2) Provision of the full amount of required matching funds is
6 not required to permit the expenditure of capital budget
7 appropriations for phased projects if a proportional amount of the
8 required matching funds is provided for each distinct, identifiable
9 phase of the project.

10 NEW SECTION. **Sec. 8016.** NONTAXABLE AND TAXABLE BOND PROCEEDS.
11 Portions of the appropriation authority granted by this act from the
12 state building construction account, or any other account receiving
13 bond proceeds, may be transferred to the state taxable building
14 construction account as deemed necessary by the state treasurer, on
15 behalf of the state finance committee, to comply with the federal
16 internal revenue service rules and regulations pertaining to the use
17 of nontaxable bond proceeds. Portions of the general obligation bond
18 proceeds authorized by chapter . . . , Laws of 2025 ((Z-0218/25) state
19 general obligation bonds and related accounts) for deposit into the
20 state taxable building construction account that are in excess of
21 amounts required to comply with the federal internal revenue service
22 rules and regulations shall be deposited into the state building
23 construction account. The state treasurer shall submit written
24 notification to the director of financial management and the
25 legislative evaluation and accountability program committee if it is
26 determined that a shift of appropriation authority between the state
27 building construction account, or any other account receiving bond
28 proceeds, and the state taxable building construction account is
29 necessary, or that a shift of appropriation authority from the state
30 taxable building construction account, or any other account receiving
31 taxable bond proceeds, to the state building construction account may
32 be made.

33 NEW SECTION. **Sec. 8017.** (1) Minor works project lists are
34 single line appropriations that include multiple projects of a
35 similar nature and that are valued between \$25,000 and \$1,500,000
36 each, with the exception of higher education minor works projects
37 that may be valued up to \$2,000,000. Funds appropriated in this act
38 for minor works may not be initially allotted until agencies submit

1 project lists to the office of financial management for review and
2 approval.

3 (2) Revisions to the project lists, including the addition of
4 projects and the transfer of funds between projects, are allowed but
5 must be submitted to the office of financial management, the house of
6 representatives capital budget committee, and the senate ways and
7 means committee for review and comment, and must include an
8 explanation of variances from prior approved lists. Any project list
9 revisions must be approved by the office of financial management
10 before funds may be expended from the minor works appropriation.

11 (3)(a) All minor works projects should be completed within two
12 years of the appropriation with the funding provided.

13 (b) Agencies are prohibited from including projects on their
14 minor works lists that are a phase of a larger project, and that if
15 combined over a continuous period of time, would exceed \$1,500,000,
16 or \$2,000,000 for higher education minor works projects.

17 (c) Minor works appropriations may not be used for the following:
18 Studies, except for technical or engineering reviews or designs that
19 lead directly to and support a project on the same minor works list;
20 planning; design outside the scope of work on a minor works list;
21 movable, temporary, and traditionally funded operating equipment not
22 in compliance with the equipment criteria established by the office
23 of financial management; software not dedicated to control of a
24 specialized system; moving expenses; land or facility acquisition;
25 rolling stock; computers; or to supplement funding for projects with
26 funding shortfalls unless expressly authorized. The office of
27 financial management may make an exception to the limitations
28 described in this subsection (3)(c) for exigent circumstances after
29 notifying the legislative fiscal committees and waiting 10 days for
30 comments by the legislature regarding the proposed exception.

31 (d) Minor works preservation projects may include program
32 improvements of no more than 25 percent of the individual minor works
33 preservation project cost.

34 (e) Improvements for accessibility in compliance with the
35 Americans with disabilities act may be included in any of the minor
36 works categories.

37 (4) In the 2027-2029 capital budget instructions, the office of
38 financial management shall increase the minor works threshold to
39 \$2,000,000, with the exception of higher education minor works
40 projects that may be valued up to \$4,000,000. It is the intent of the

1 legislature to increase the minor works threshold for the 2027-2029
2 biennial budget to \$2,000,000, with the exception of higher education
3 minor works projects that may be valued up to \$4,000,000.

4 NEW SECTION. **Sec. 8018.** To the extent that any appropriation
5 authorizes expenditures of state funds from the state building
6 construction account, or from any other capital project account in
7 the state treasury, for a capital project or program that is
8 specified to be funded with proceeds from the sale of bonds, the
9 legislature declares that any such expenditures for that project or
10 program made prior to the issue date of the applicable bonds are
11 intended to be reimbursed from proceeds of those bonds in a maximum
12 amount equal to the amount of such appropriation.

13 NEW SECTION. **Sec. 8019. FOR THE STATE TREASURER—TRANSFERS**

- 14 (1) Public Works Assistance Account: For transfer to the
15 water pollution control revolving account—state, up to
16 \$20,500,000 for fiscal year 2026 and up to \$20,500,000
17 for fiscal year 2027. \$41,000,000
18 (2) Public Works Assistance Account: For transfer
19 to the drinking water assistance account—state, up to
20 \$12,500,000 for fiscal year 2026 and up to \$12,500,000
21 for fiscal year 2027. \$25,000,000

22 NEW SECTION. **Sec. 8020.** The department of natural resources
23 must coordinate with the department of social and health services on
24 any long-term, revenue-generating opportunities it pursues on the
25 Fircrest campus to ensure that the clients served by the residential
26 habilitation center and its daily operations will not be negatively
27 impacted.

28 NEW SECTION. **Sec. 8021.** (1)(a) The director of the office of
29 financial management, or the director's designee, shall collect a
30 list of clean energy projects from state agencies that may qualify
31 for elective payment under P.L. 117-169 (inflation reduction act of
32 2022), such as the purchase of electric vehicle fleets; alternative
33 fuel vehicle refueling and charging; and renewable energy projects
34 including wind, solar, geothermal, electrolytic hydrogen, and energy
35 storage.

1 (b) For tax years 2025 and 2026, the director or director's
2 designee shall work with agencies, including institutions of higher
3 education, to complete all steps necessary to file an annual tax
4 return with the United States internal revenue service on behalf of
5 the state in order to claim elective payments.

6 (2) The office of financial management shall provide a report to
7 the fiscal committees of the legislature by July 1, 2025, and June
8 30, 2026, that summarizes the state's tax return submitted that year,
9 including the total dollar value of projects included in the tax
10 return and the total dollar amount of direct pay tax credits sought.
11 The report must also include an itemized list of the projects that
12 displays the dollar amounts and types of tax credits sought.

13 (3) Funds received by the state pursuant to this section shall be
14 deposited into the inflation reduction elective pay account created
15 in RCW 43.79.572.

16 NEW SECTION. **Sec. 8022.** In order to accelerate the reduction of
17 embodied carbon and improve the environmental performance of
18 construction materials, agencies shall, whenever possible, review and
19 consider embodied carbon reported in environmental product
20 declarations when evaluating proposed structural materials for
21 construction projects.

22 NEW SECTION. **Sec. 8023.** Any agency receiving appropriations in
23 this act from climate commitment act accounts created in RCW
24 70A.65.240 through 70A.65.280 must report to and coordinate with the
25 department of ecology to track expenditures as described in RCW
26 70A.65.300 and chapter 173-446B WAC.

27 **Sec. 8024.** RCW 79A.25.210 and 2024 c 375 s 8007 are each amended
28 to read as follows:

29 The firearms range account is hereby created in the state general
30 fund. Moneys in the account shall be subject to legislative
31 appropriation and shall be used for purchase and development of land,
32 construction or improvement of range facilities, including fixed
33 structure construction or remodeling, equipment purchase, safety or
34 environmental improvements, noise abatement, and liability protection

4 funds shall not supplant funds for other organization programs.

5 The funds will be available to nonprofit shooting organizations,

11 Applicants for a grant from the firearms range account shall
12 provide matching funds in either cash or in-kind contributions. The
13 match must represent one dollar in value for each one dollar of the
14 grant except that in the case of a grant for noise abatement or
15 safety improvements the match must represent one dollar in value for
16 each two dollars of the grant. In-kind contributions include but are
17 not limited to labor, materials, and new property. Existing assets
18 and existing development may not apply to the match.

19 Applicants other than school districts or local or state
20 government must be registered as a nonprofit or not-for-profit

23 the organization's structure, officers, legal address, and registered
24 agent.

25 Organizations requesting grants must provide the hours of range
26 availability for public and law enforcement use. The fee structure
27 will be submitted with the grant application.

28 Any nonprofit organization or agency accepting a grant under this
29 program will be required to pay back the entire grant amount to the
30 firearms range account if the use of the range facility is
31 discontinued less than ten years after the grant is accepted.

32 Entities receiving grants must make the facilities for which
33 grant funding is received open for hunter safety education classes
34 and firearm safety classes on a regular basis for no fee.

35 Government units or school districts applying for grants must
36 open their range facility on a regular basis for hunter safety
37 education classes and firearm safety classes.

38 The board shall adopt rules to implement chapter 195, Laws of

12 During the 2023-2025 and 2025-2027 fiscal (~~(biennium)~~) biennia,
13 the application and matching funds requirements of this section do
14 not apply to the recreational target shooting pilot sites in section

29 (4) During the 2023-2025 fiscal biennium, the ability of a
30 legislative authority of a county to request the distribution of
31 proceeds from valuable materials under subsection (3)(a) of this
32 section does not apply to structurally complex, carbon-dense forested

32 insufficient to pay and secure the payment of the principal of and
33 interest on the outstanding building bonds, the state treasurer shall
34 notify the college board and such board shall adjust its certificate
35 so that all requirements of moneys to pay and secure the payment of

17 (3) Funds available in the community and technical college
18 capital projects account may also be used for certificates of
19 participation under chapter 39.94 RCW.

20 **Sec. 8032.** RCW 39.35D.030 and 2023 c 474 s 8029 are each amended
21 to read as follows:

22 (1) All major facility projects of public agencies receiving any
23 funding in a state capital budget, or projects financed through a
24 financing contract as defined in RCW 39.94.020, must be designed,
25 constructed, and certified to at least the LEED silver standard. This
26 subsection applies to major facility projects that have not entered
27 the design phase prior to July 24, 2005, and to the extent
28 appropriate LEED silver standards exist for that type of building or
29 facility.

30 (2) All major facility projects of any entity other than a public
31 agency or public school district receiving any funding in a state
32 capital budget must be designed, constructed, and certified to at
33 least the LEED silver standard. This subsection applies to major
34 facility projects that have not entered the grant application process
35 prior to July 24, 2005, and to the extent appropriate LEED silver
36 standards exist for that type of building or facility.

37 (3)(a) Public agencies, under this section, shall monitor and
38 document ongoing operating savings resulting from major facility

1 projects designed, constructed, and certified as required under this
2 section.

3 (b) Public agencies, under this section, shall report annually to
4 the department on major facility projects and operating savings.

5 (4) The department shall consolidate the reports required in
6 subsection (3) of this section into one report and report to the
7 governor and legislature by September 1st of each even-numbered year
8 beginning in 2006 and ending in 2016. In its report, the department
9 shall also report on the implementation of this chapter, including
10 reasons why the LEED standard was not used as required by RCW
11 39.35D.020(5)(b). The department shall make recommendations regarding
12 the ongoing implementation of this chapter, including a discussion of
13 incentives and disincentives related to implementing this chapter.

14 (5) For the purposes of determining compliance with the
15 requirement for a project to be designed, constructed, and certified
16 to at least the LEED silver standard, the department must credit one
17 additional point for a project that uses wood products with a
18 credible third-party sustainable forest certification or from forests
19 regulated under chapter 76.09 RCW, the Washington forest practices
20 act. For projects that qualify for this additional point, and for
21 which an additional point would have resulted in formal certification
22 under the LEED silver standard, the project must be deemed to meet
23 the standard under this section.

24 (6) During the (~~2021-2023 and~~) 2023-2025 and 2025-2027 fiscal
25 biennia, an alternative high-performance building certification, as
26 determined by the legislature, may be used instead of the LEED silver
27 building design, construction, and certification standard required by
28 this section.

29 **Sec. 8033.** RCW 43.07.410 and 2023 c 474 s 8030 are each amended
30 to read as follows:

31 The Washington state library-archives building account is created

33 36.18.010(12), 36.22.175(3), and 43.07.370(3) must be deposited in
34 the account. Except for during the 2023-2025 fiscal biennium,
35 expenditures from the account may be made only for the purposes of
36 payment of the financing contract entered into by the secretary of
37 state for the Washington state library-archives building. During the
38 (~~2023-2025~~) 2025-2027 fiscal biennium, the secretary of state may
39 spend up to (~~(\$8,000,000)~~) \$6,949,000 from the account for costs

1 associated with the design and construction of the state library-
2 archives building and for costs necessary to prepare the building for
3 occupancy. Only the secretary of state or the secretary of state's
4 designee may authorize expenditures from the account. An
5 appropriation is not required for expenditures, but the account is
6 subject to allotment procedures under chapter 43.88 RCW.

7 **Sec. 8034.** RCW 43.88D.010 and 2023 c 474 s 8034 are each amended
8 to read as follows:

9 (1) By October 1st of each even-numbered year, the office of
10 financial management shall complete an objective analysis and scoring
11 of all capital budget projects proposed by the public four-year
12 institutions of higher education and submit the results of the
13 scoring process to the legislative fiscal committees and the four-
14 year institutions. Each project must be reviewed and scored within
15 one of the following categories, according to the project's principal
16 purpose. Each project may be scored in only one category. The
17 categories are:

18 (a) Access-related projects to accommodate enrollment growth at
19 all campuses, at existing or new university centers, or through
20 distance learning. Growth projects should provide significant
21 additional student capacity. Proposed projects must demonstrate that
22 they are based on solid enrollment demand projections, more
23 cost-effectively provide enrollment access than alternatives such as
24 university centers and distance learning, and make cost-effective use
25 of existing and proposed new space;

26 (b) Projects that replace failing permanent buildings. Facilities
27 that cannot be economically renovated are considered replacement
28 projects. New space may be programmed for the same or a different use
29 than the space being replaced and may include additions to improve
30 access and enhance the relationship of program or support space;

31 (c) Projects that renovate facilities to restore building life
32 and upgrade space to meet current program requirements. Renovation
33 projects should represent a complete renovation of a total facility
34 or an isolated wing of a facility. A reasonable renovation project
35 should cost between sixty to eighty percent of current replacement
36 value and restore the renovated area to at least twenty-five years of
37 useful life. New space may be programmed for the same or a different
38 use than the space being renovated and may include additions to

1 improve access and enhance the relationship of program or support
2 space;

3 (d) Major stand-alone campus infrastructure projects;

4 (e) Projects that promote economic growth and innovation through
5 expanded research activity. The acquisition and installation of
6 specialized equipment is authorized under this category; and

7 (f) Other project categories as determined by the office of
8 financial management in consultation with the legislative fiscal
9 committees.

10 (2) The office of financial management, in consultation with the
11 legislative fiscal committees, shall establish a scoring system and
12 process for each four-year project category that is based on the
13 framework used in the community and technical college system of
14 prioritization. Staff from the state board for community and
15 technical colleges and the four-year institutions shall provide
16 technical assistance on the development of a scoring system and
17 process.

18 (3) The office of financial management shall consult with the
19 legislative fiscal committees in the scoring of four-year institution
20 project proposals, and may also solicit participation by independent
21 experts.

22 (a) For each four-year project category, the scoring system must,
23 at a minimum, include an evaluation of enrollment trends,
24 reasonableness of cost, the ability of the project to enhance
25 specific strategic master plan goals, age and condition of the
26 facility if applicable, and impact on space utilization.

27 (b) Each four-year project category may include projects at the
28 predesign, design, or construction funding phase.

29 (c) To the extent possible, the objective analysis and scoring
30 system of all capital budget projects shall occur within the context
31 of any and all performance agreements between the office of financial
32 management and the governing board of a public, four-year institution
33 of higher education that aligns goals, priorities, desired outcomes,
34 flexibility, institutional mission, accountability, and levels of
35 resources.

36 (4) In evaluating and scoring four-year institution projects, the
37 office of financial management shall take into consideration project
38 schedules that result in realistic, balanced, and predictable
39 expenditure patterns over the ensuing three biennia.

1 (5) The office of financial management shall distribute common
2 definitions, the scoring system, and other information required for
3 the project proposal and scoring process as part of its biennial
4 budget instructions. The office of financial management, in
5 consultation with the legislative fiscal committees, shall develop
6 common definitions that four-year institutions must use in developing
7 their project proposals and lists under this section.

8 (6) In developing any scoring system for capital projects
9 proposed by the four-year institutions, the office of financial
10 management:

11 (a) Shall be provided with all required information by the four-
12 year institutions as deemed necessary by the office of financial
13 management;

14 (b) May utilize independent services to verify, sample, or
15 evaluate information provided to the office of financial management
16 by the four-year institutions; and

17 (c) Shall have full access to all data maintained by the joint
18 legislative audit and review committee concerning the condition of
19 higher education facilities.

20 (7) By August 1st of each even-numbered year each public four-
21 year higher education institution shall prepare and submit
22 prioritized lists of the individual projects proposed by the
23 institution for the ensuing six-year period in each category. The
24 lists must be submitted to the office of financial management and the
25 legislative fiscal committees. The four-year institutions may
26 aggregate minor works project proposals by primary purpose for
27 ranking purposes. Proposed minor works projects must be prioritized
28 within the aggregated proposal, and supporting documentation,
29 including project descriptions and cost estimates, must be provided
30 to the office of financial management and the legislative fiscal
31 committees.

32 (8) For the 2021-2023 fiscal biennium, pursuant to subsection (1)
33 of this section, by November 1, 2022, the office of financial
34 management must score higher education capital project criteria with
35 a rating scale that assesses how well a particular project satisfies
36 those criteria. The office of financial management may not use a
37 rating scale that weighs the importance of those criteria.

38 (9) For the 2021-2023 fiscal biennium, pursuant to subsection
39 (6)(a) of this section and in lieu of the requirements of subsection
40 (7) of this section, by August 15, 2022, the institutions of higher

1 education shall prepare and submit or resubmit to the office of
2 financial management and the legislative fiscal committees:

3 (a) Individual project proposals developed pursuant to subsection
4 (1) of this section;

5 (b) Individual project proposals scored in prior biennia pursuant
6 to subsection (1) of this section; and

7 (c) A prioritized list of up to five project proposals submitted
8 pursuant to (a) and (b) of this subsection.

9 (10) The requirements of this section are suspended during the
10 2023-2025 and 2025-2027 fiscal ((biennium)) biennia. ((However,
11 ~~instead of these requirements, the public four-year institutions of~~
12 ~~higher education must submit additional supporting information for~~
13 ~~major project funding requests for the 2025-2027 fiscal biennium that~~
14 ~~is equivalent to the information produced for the 2022 higher~~
15 ~~education scoring process under subsection (9) of this section.~~
16 ~~Examples of the information required under this subsection include,~~
17 ~~but are not limited to, measures of: (a) Space efficiency, (b)~~
18 ~~reasonableness of project cost, (c) facility condition, and (d)~~
19 ~~anticipated impacts of the requested major projects on projected~~
20 ~~degree totals. The public four-year institutions of higher education~~
21 ~~shall consult with the office of financial management and legislative~~
22 ~~fiscal staff regarding the implementation of this requirement and the~~
23 ~~content of the additional information.))~~
