

## Expenditures Greater or Less Than Revenues?

From 2008 to 2016, Chelan, Snohomish, and Whatcom Counties changed position on the expenditures/revenue scale:

County	FY 2008 Ratio	FY 2015 Ratio	Main Reasons for Change
Chelan	1.03	0.95	A larger increase in revenues relative to expenditures.
Snohomish	0.99	1.02	Increases in sales and B&O taxes exceeded by increased K-12 and other agency expenditures
Whatcom	0.97	1.04	Larger increase in expenditures relative to revenues

The following maps show which counties have expenditures greater than revenues and which have revenues greater than expenditures. The maps should be viewed in combination with the tables as some counties have expenditure-to-revenue ratios very close to 1.

### Comparison of Counties by Ratio of Washington State Expenditures/Revenues Based on Expenditure Methodology 1

■ State expenditures within county are greater than state revenues  
■ State expenditures within county are less than state revenues
