

# Population Estimate System

## User Guide

---

This document will show you how to use the Population Estimate System (PES).

### **IMPORTANT! Before You Begin!**

- Make sure that you have a SecureAccess Washington (SAW) account and have registered your account with PES using your PIN. For instructions on how to do this, see the [Setting up a SAW Account and Registering with PES](#) document on the OFM [April 1 population estimates program information page](#).

### Login to PES

1. Start a browser session.

In the address bar, enter:  
<https://pop.ofm.wa.gov>

You will be redirected to a  
**Sign In** screen.

2. Choose **Secure Access Washington** from the account list.

Sign in with one of these accounts

3. Enter the **USERNAME** and **PASSWORD** that you created when you set up your SAW account.

Click the **SUBMIT** button.

*SAW has a 60-minute timer that starts as soon as you login. If you exceed an hour, you'll need to refresh your browser and login through SAW again.*

## PES Dashboard

1. Based on your User ID, the system knows what **City** you're reporting on.

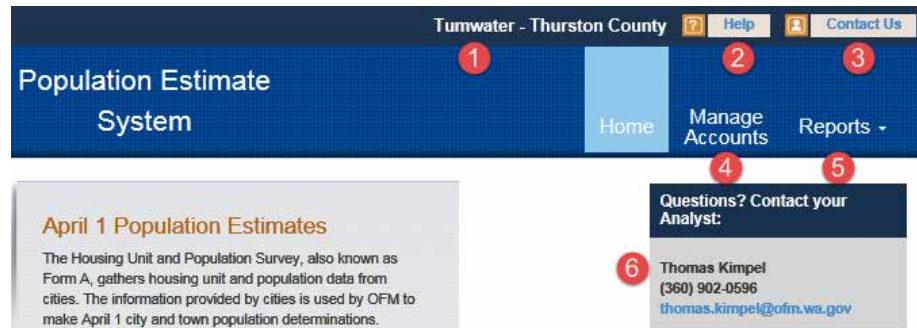

2. **Help** takes you to an information page with resources about the April 1 population estimate process.

3. **Contact Us** takes you to the contact information page.

4. **Manage Accounts** allows you to create and manage user accounts for your city.

5. A variety of **Reports** are available through PES. You can print Form A from here as well.

6. **Contact your Analyst** Allows users to email their OFM Population analyst through the email link provided. A template email will be opened. Please do not change the "To" or "Subject" fields.

**Estimate Status** gives you a way to track where things are in the process.

Information in the arrows and text boxes change based on statuses.

### 1. Jurisdiction Data Reporting

**Reporting:** Shows the Form A due date.

When Form A reporting is available, the link will be enabled and will be the only text in the box.

When Form A reporting is unavailable, the link will be disabled and text below tells user reporting is closed.

### 2. OFM Estimate Development

**Development:** Lets you know if your population estimate is pending review, in progress of review or your review is completed.

### 3. Jurisdiction Estimate Review

**Review:** The expected date when OFM's preliminary review documents will become available.

When the OFM preliminary estimates are ready for review, a link to the estimate will display.

### 4. OFM Final Estimate:

The date by which OFM must complete the final estimate.

A link to the OFM April 1 estimate page will be available when your final estimate is completed.

## Annexations

1. This page lists the annexations and boundary changes that have been approved by OFM that will be included in this year's estimate.

2. Tell us about any annexation and boundary changes that are missing from the list by using the **Report Annexation** button.

### D. Annexations and municipal boundary changes from April 2, 2015 through April 1, 2016

#### + Instructions

Population and housing unit counts for these areas will be included in your city's population estimate:

[+ Report Annexation](#)

## Additional Comments

1. Tell us anything else you would like us to consider when developing your city's population estimate.

### Additional comments

You may provide additional information for OFM to consider or reference during the estimate process. You can also provide an advisory estimate, which must be accompanied with the input data and the description of the method used. OFM needs that information to review your estimate. You can attach files to this Form A in the attach files section.

#### Comments:

We developed our own population estimate based on last year's information, new housing and group quarters. We also had a large annexation. We estimate the city's population to be 22,555. Please see the attached worksheet `pop_estimate_2016.xlsx`.

## Attach Files

*You can add up to 10 files. The files can't be larger than 20MB.*

2. Click the **Add attachment** button, then navigate to the file you want to attach and click **Open**.

### Attach files

To provide additional information or advisory estimates, attach files in this section which will be included as part of your Form A submission to OFM. There are some restrictions on file format and the sizes. Please read the instructions below prior to attaching files. As an alternative for large or incompatible files, you can send them via email to your jurisdiction analyst.

**+ Instructions**

No documentation has been uploaded for this estimate.

**Add attachment**

1. Once a file has been added it will appear on the page. Users can provide a brief description of the file and then click the **Upload** button. Descriptions are not required. You can upload a file without a description.

2. The Progress field will show the status of the upload. When the file has been successfully uploaded, the status indicator shows completed or filled in.

3. The new attachment should now show up in the **Supporting documents** list.

If you change your mind, click the **Delete** button and confirm that you want to delete the attachment.

## Managing User Accounts

1. Each user must be assigned a role. There are three roles within the system

Each city must have one person assigned as the Highest Elected Official. The Highest Elected Official can be assigned to any role and must be assigned to the Highest Elected Official Title.

**IMPORTANT! Only the Population Contact can add users, deactivate users and assign user roles and titles.**

### Roles:

Reviewer – A Reviewer can view Form A data, but cannot submit data. They can edit their own account contact information, but cannot change their role or remove themselves as user.

Editor – An Editor can edit and save Form A data, but cannot submit data. They can edit their own account contact information, but cannot change their role or remove themselves as a user.

Population Contact – There can be only one Population Contact per city. A Population Contact can edit and submit Form A data. They can edit their account contact information and the contact information for any user in their city, but cannot remove themselves as a user. They can assign another user as a Population Contact, but the existing Population Contact's role will be changed to an Editor.

### Title:

Highest Elected Official – the highest elected official will receive notifications informing them of the estimate development and review process. They can be assigned as any role.

2. From the PES homepage, choose **Manage Accounts** from the top menu. Current users are listed alphabetically by last name, regardless of their role.

*Based on your current role, your view of the users may be different.*

## Reports

Several reports are available that allow users to view Population and Housing data, census data, annexations and estimate data.

Some reports are limited to specific times of the year when they are available.

When reports aren't available, the name of the report will display in a lighter color gray.

### Form A – Unedited

This report helps users see what their prior April 1 reporting population and housing data that was provided to OFM. This same information is available when the current April 1 reporting period is open for submission. Between January 1 – February 28, users are able to access the prior April 1 reporting year report.

Between March 1 and the end of the calendar year, users are able to access the current April 1 reporting year report.

### Form A – City Edited

This report allows users to see the population and housing data they reported/saved in PES during an open April 1 reporting period. This is helpful for cities who have more than one person reporting data but only the Population Contact who is authorized to submit data to OFM

Available during the current April 1 Form A reporting period.

*Once users submit Form A data, the report is no longer available; however users can view their submitted data by viewing the Form A – OFM Edited report.*

### Form A – OFM Edited

This report shows users their Form A data submitted to OFM along with any updates by the OFM analyst. City data appears crossed out and the OFM data appears in red text below the city data.

Between January 1 through the day before the current April 1 reporting year period, users can view prior April Year reports. Reports are available for prior decade years and current decade years (where prior decade currently only has reports as far back as 2016). When the current April 1 reporting year period is open, users can view that year's report.

### Census Summary

This report is always available. Data displayed is from a saved census. This could be a Federal Census, Corrected Federal Census, Formal Census or Informal Census.

### Census PPH and Occupancy Rates

This report is always available. Data displayed goes back to 1990 up to the most recent saved census. Bold text shows data for census years. Non bold text shows data for years when an estimate was performed by OFM.

### Anneation List

This report is always available.  
Data only displays if the jurisdiction has annexations

### Estimate Review Worksheet

This report is provided for a review period in June after OFM has received the current April 1 population and housing data and has performed their estimates. Final estimate data is always available by July 1<sup>st</sup>.  
Between January 1 through early June users will be able to choose which April 1 reporting year report they'd like to view. During the Estimate Review period in June, the current April Year estimate data is available. If there are any changes by OFM, users can view the updated data.  
Between July 1 and December 31, the Final Estimate data for the prior April 1 reporting period is available.  
For cities whos boundaries span more than one county, your report will display information for each county. The report displays the city/county combination in alphabetical order by the county name.

### Preliminary Population Determination

Only available during the time users can view their preliminary estimates.
