Sources of change in population and housing counts are labeled as follows:

(A): Population and housing units added due to annexations through April 1, 2010 that were not included within federal census boundaries.

(B): Special state certified city April 1, 2010 census used in place of the federal census; and,

(F): Census Bureau's corrections to the federal counts due to misallocation of population and housing units. State totals may change if there are federal corrections to county population and housing units.
