Overview

The IRS has a concept of constructive receipt for when a taxpayer has payments available as income. For Washington State payments, constructive receipt changes depending on payment method.

- For Warrants, the receipt date is the warrant date.
- For Electronic Fund Transfers (EFT) the receipt date is the deposit date, which is two business days from the day the batch was released in AFRS.

To avoid potential issues, do not make 1099 reportable payments on the last two business days of the year.

To ensure agencies report all EFT payments in the proper reporting year, agencies will need to run Enterprise Reports. Each agency can choose to run either an Enterprise Reporting - Standard Report or an Enterprise Reporting - Web Intelligence Report to extract the data. It is highly recommended that agencies use the Web Intelligence report.
