July 26, 2022

**OFM DIRECTIVE 22A-06**

**TO:** Agency Directors and Policy Manual Users

**FROM:** /s/ Brian Tinney, Assistant Director  
Accounting Division

**SUBJECT: Update Chapter 75, Uniform Chart of Accounts – Elimination of State Project Code to Track Coronavirus 19**

Effective for fiscal year 2023, state project code XX19 is no longer needed to be used to track Coronavirus 19 expenditures. Agencies may choose to continue to use project code XX19 for their internal reporting, but OFM will not use the project code to collect statewide expenditures. OFM Budget is using a combination of expenditure authority codes and cost objectives to continue to track these costs on a statewide basis.

Thank you for your time and effort in helping us track and report information related to this emergency. If you have any questions, please contact your assigned accounting consultant.
