Conducts audits, reviews analytics on the agency's contracted providers and entities to identify, prevent and recover improper payments resulting from waste abuse and to refer the potential fraud for investigation. This exempt class develops, implements, and manages initiatives, programs, and remedies as directed by the federal Health and Human Services Office of the Inspector General, Centers for Medicare and Medicaid Services, Center of Program Integrity, the State Auditor's Office or the legislature or Governor's office related to fraud, waste, and abuse within the Medicaid program. Represents HCA and Washington State in local, regional, and national health policy areas.

Section B: Exempt Compensation

Positions in this listing are under the State Human Resources Director for the setting of salaries and fringe benefits, but are otherwise exempt from civil service.

Explanation

The agency has requested to establish this exempt class in response to the creation of the Division of Program Integrity. This change is the result of an agency reorganization based upon the recommendation from the Centers for Medicare & Medicaid Services. CMS conducted a focused review and recommended that HCA organize all program integrity activities into a centralized unit. The work performed by this exempt class was previously performed by a WMS Band III as the Section Manager of the Program Integrity section within the Medicaid Program Operations & Integrity division but is now the appointing authority for the Division of Program Integrity. This establishment and EMS Band placement aligns with similar exempt classes with comparable decision-making authority, complexity of work, and knowledge, skills and abilities required. Upon establishment of this exempt class, the agency intends to abolish the WMS Band III position.

This exempt class meets the requirements of RCW 41.05.021(1) "The director may employ...and such assistant directors...as may be needed to administer...".

State HR staff evaluated this class with a JVAC rating of D4Y-1012, which meets the EMS Band IV level. OFM Budget has approved the fiscal impact statement and states the agency can absorb the cost associated with this action.

One of the areas identified is the need to create or revise job classifications to encompass the work that is currently performed by exempt staff, specifically those staff who are hourly and work no more than 1,050 hours in a year. The new established classifications are available for use to permanent employees prior to July 1, 2022, and to non-permanent employees effective July 1, 2022.

Explanation

The part-time/temporary/higher education non-perm rule changes that resulted from Chapter 246, Laws of 2018 (HB 2669) will become effective July 1, 2022. Over the past couple years, OFM State HR worked with members of the higher education community to identify what needs to occur prior to implementation of the rule changes this upcoming July. One of the areas identified is the need to create or revise job classifications to encompass the work that is currently performed by exempt staff, specifically those staff who are hourly and work no more than 1,050 hours in a year. The new established classifications are available for use to permanent employees prior to July 1, 2022, and to non-permanent employees effective July 1, 2022.

Definition

Works under direct supervision in a long-term care setting and serves as a hospitality aide to healthcare paraprofessionals and professionals, such as certified nurse's aides and licensed nursing staff. Positions complete numerous non-medical tasks indirectly or directly for residents.

Explanation

The Department of Veterans Affairs proposes to establish a new job class titled Hospitality Aide. This position would perform non-medical tasks such as checking in and directing staff and visitors, passing meal trays, snacks, and fluids to residents, restocking resident supply closets, change bed linens, transport residents using wheelchair or wheeled cart, and running errands. This could free up a significant amount of the NACs workload so that they would be able to provide more focused care for their residents. This request is in response to the consistently high turnover in the Nursing Assistant classification, which serve their veterans' homes.

OFM Budget has approved the fiscal impact statement and the agency can absorb all cost associated with this request.

Special Pay Range

Action J-Range Special Pay Increase	Agency/HE Institution Washington's Lottery	Effective Date 07/01/2022	Analyst Shelby Sheldon
Job Class	Current Salary Range	Proposed Salary Range	
There is no Class Title/Job Class associated with J-Range Special Pay. Anyone within the Lottery can volunteer for Drawing duties.	Range 62, Step K	Range 69, Step L	

Explanation

State HR Staff **support with modification** Washington's Lottery request to increase to the J-Range Special for Lottery employees who volunteer and are selected for drawing duty. Currently, the J-Range Special Pay is Range 62, Step K. State HR staff recommend increasing the Special Pay J-Range to Range 69, Step L, approximately 20% (7 ranges), based on the increased complexity and risk of their daily drawings. State HR staff determined this percentage based on the average hourly base rate of pay multiplied by 1.5 (time and one half) for all Lottery employees except the Director & Deputy Director. This method is consistent with how increases to the J-Range have been done in the past.

OFM Budget has approved the fiscal impact statement and the agency can absorb all cost associated with this request.
