AGENCY BUDGET SYSTEM

We are excited to announce that the state's new Agency Budget System (ABS) is up and running. Please discontinue use of the Budget Development System (BDS) and use ABS to prepare and submit your 2019-21 biennial and 2019 supplemental budget requests. All current BDS users have been granted the same [access to ABS](#) using the same logon credentials. New users will need to request access by submitting a [security request form](#).

If you have not already attended an ABS training, please consider registering through [LMS](#) or by emailing onewa@ofm.wa.gov if your agency is not an LMS user. The course name is Agency Budget System (ABS) Training, which can be found by using the LMS search feature. The remote only ABS training session on 6/14 will be recorded and posted on the [Washington BudgetWorks page](#) in late June, for those unable to attend a session or needing a refresher later.

For project background and prior project updates, please visit our [Budget Systems Modernization](#) page on the One Washington website.

If you have any questions about using the system, please contact the WaTech Support Center at (360) 586-1000 or support@watech.wa.gov. If you would like to provide feedback about the new system, please email OFM at ofm.budget@ofm.wa.gov.

Thank you for your support in making this transition!
