Class Specification

MAINTENANCE SUPERVISOR, FLOATING BRIDGE

597J

Abolished: Adopted 08/13/2009, Effective 08/14/2009

Definition:

Plans and supervises crews performing maintenance and repair on floating bridge structures.

Typical Work:

Plans and supervises the work of crews engaged in specialized maintenance, repair and reconstruction of concrete, steel and wood structures on floating bridges, including bridge tenders and other supporting activities;

Supervises the inspection of structures for condition and necessary repairs on a preventative maintenance basis or damage repair;

Plans the work, including maintenance and repair procedures, determination of fund availability, staffing and procurement and delivery of materials;

Ensures that maintenance and reconstruction plans, specifications, policies, and manual provisions are adhered to;

Supervises the maintenance of accounting and personnel records and the preparation of required reports;

Assigns, trains and evaluates subordinate personnel;

Assists in the performance of all functions of the Bridge Maintenance Superintendents' responsibilities;

Maintains good personnel, safety and public relation practice;

Performs other related work as required.

Legal Requirement(s):

There may be instances where individual positions must have additional licenses or certification. It is the employer's responsibility to ensure the appropriate licenses/certifications are obtained for each position.

Desirable Qualifications:

High school graduation or possession of a GED certificate.

AND

One year of experience as a Maintenance Supervisor, Bridge, or Maintenance Supervisor or two years of experience as a Maintenance Lead Technician, Bridge, or Maintenance Lead Technician, Suspension Bridge.

A Commercial Driver's License (CDL) Class A with endorsement N and without air brakes restriction is required. Some positions may require the H endorsement.

Equivalent education/experience.

Note: Must be capable of working at heights exceeding 100 feet and inside a confined space environment.
