Engaged employees find pride in their work and are more likely to go above and beyond.

Decades of research reveal a strong connection between employee engagement and organizational performance. Engaged employees find their work meaningful and are more likely to deliver results for their agency, coworkers and other stakeholders. Using a data-driven and action-focused approach to engagement can result in:

- Achieving strategic goals
- Better customer service
- More innovation
- Higher employee retention
- Fewer equal opportunity complaints

The Washington State Employee Engagement Survey gathers feedback on practices that influence job satisfaction, engagement, leadership, customer value and job support. Responses to questions help leaders, managers and supervisors guide and measure their efforts.

The Survey was conducted every two years from 2006 to 2013, and annually thereafter. The Washington State Office of Financial Management, State Human Resources Division is responsible for administration of the survey. This dashboard contains the past five years of survey data.

**Rating scale**

5-Almost always or always
4-Usually
3-Occasionally
2-Seldom
1-Almost never or never

**How percentages are calculated**

Researchers consider employees to respond to a question with 5 or 4 as satisfied. Employees who respond with 1, 2 or 3 are not satisfied. The percentages are averages of these designations.

**NA**

Only visuals and numbers of groups ten or over are available through this dashboard. Otherwise, visuals default to "NA".

Use these filters for year and agency to explore the data.
PARTICIPATING AGENCY RESPONSE RATE

Use these filters for year and agency to explore the data.

Agency

Statewide
A motivated employee is an engaged employee. Research shows that intrinsic motivation is the most powerful and long-lasting strategy for motivation. In 2018, the Office of Financial Management, State Human Resources developed the RAMP model. This human-centered framework was inspired by Self-Determination Theory, Maslow’s Hierarchy of Needs, *Drive* by Daniel Pink, and decades of other motivation research.

### Relationships
**The drive to feel respected and connected.** In the workplace, relationships provide a sense of value, support, and encouragement. The model starts with relationships because they provide the foundation to our engagement in the workplace.

### Autonomy
**The drive for freedom and discretion.** Autonomy with our work gives us the space to use diverse methods to get the job done. This enables us to find creative solutions to complex problems.

### Mastery
**The drive to learn and grow.** A sense of progress, not just in our work, but also in our capabilities, drives us to succeed. Our workplace cultures must encourage continuous feedback, skill development, and provide realistic challenges.

### Purpose
**The drive for meaning.** In the workplace, our purpose is much more than a mission statement. It is believing the work we do matters and knowing how success is measured.
RELATIONSHIPS

86%
My supervisor treats me with dignity and respect.

72%
People are treated fairly in my work group.

74%
My agency consistently demonstrates support for a diverse workforce.

72%
A spirit of cooperation and teamwork exists in my work group.

66%
At my workplace, I feel valued for who I am as a person.

Agency strategies

- Provide information on hiring in a fair, standard, and legally defensible way (Department of Labor and Industries).
- Hold focus groups for “Respect in the Workplace” (Department of Veterans Affairs).
- Hire a consultant to conduct a diversity and inclusion assessment (Department of Health).
- Host a health and wellness fair for employees (Military Department).

Autonomy has the greatest variation in individual question scores.

**Agency strategies**

- Add the five lowest-rated questions on the engagement survey to supervisors’ performance appraisals for rating (Washington State Patrol).
- Create "touch-down stations" in buildings to allow for mobility of employees throughout campus (Utilities and Transportation Commission).
- Leadership holds office hours so employees can stop by and provide feedback (Department of Commerce).
- Hold an annual leadership conference (Department of Licensing).

Rotating questions are a great way to examine a trend. While there is no trend analysis on rotating questions, they are a great way to keep the engagement survey fresh and test new ideas or concerns. Often, these pulse-like questions will allow researchers to dive into different aspects of RAMP. OFM SHR deliberates and selects a new rotating question each summer. Explanation of what rotating questions are, how we use them, and how they are selected.

</tbody>
</table>

**AUTOMONY**

My supervisor trusts me to make decisions or recommendations that affect my work.

OFM SHR wanted to further examine Autonomy and determine if employees are able to exercise creativity and expertise in their roles. This question is also meant to investigate concerns of micro-management. Researchers found that a large majority of employees were satisfied with their supervisor, but received lots of qualitative feedback about middle management.
7 REASONS EMPLOYEE SURVEY SCORES MAY CHANGE

HEARING FROM DIFFERENT PEOPLE
Large fluctuations in response rates may indicate we are not hearing from the same employees year over year. Look at division breakouts for more information.

CHANGING EMPLOYEE EXPECTATIONS
This is a good thing! We have told employees to expect more from their employers. Now we work to deliver on that promise.

REGRESSION TO THE MEAN
Make sure to track trends over time for a more accurate picture of the direction of survey scores.

ACTION PLANNING TAKES TIME
Engagement strategies often involve culture change, which takes time. Be patient. Use the survey as a pulse check.

FRAME OF MIND
Events that occur before the respondent takes the survey may affect their responses. For example, a birthday or a bad commute. Surveying each year helps test for these outliers.

ORGANIZATIONAL CHANGE
Leadership and organizational changes can present improvements or difficulties for employees.

COMMUNICATION
It's not only the change itself, but also the communication about the change that matters. Communicate early and often, especially during times of uncertainty.
TIMELINE

Seasonal
Late April-June
- Survey planning begins.

July-September
- Survey outreach and communication development.

October
- Survey opens to all participating agencies and their employees.

November
- Survey results validated.

December
- Agencies receive official results.

January
- Advanced research on results conducted.

February-April
- Results and analysis findings presented to stakeholders.

April
- Executive formal report published.

Historic

2019
- Supplemental work environment questions added.
- Demographic pilot of additional questions offered to agencies.

2018
- New standard question added.
- Customer value pilot extended one year.

2017
- Supplemental modern work questions added.
- Customer value pilot offered to agencies to investigate lower scores.

2016
- Rotating questions added for the first time.

2015
- Survey participation rate exceeds 70% for the first time.

2014
- First “off” year for DSHS, which conducts employee survey every other year.

2013
- Survey becomes annual.
- Employer of Choice performance metric established.
- Added customer interaction questions.

2011
- Added several standard engagement questions.

2007
- Survey now conducted every two years.
- Added standard question measuring agency support for diversity.

2006
- Statewide survey first launched.
My supervisor treats me with dignity and respect.

A spirit of cooperation and teamwork exists in my work group.

Demographic information is self-reported by respondents.

### Job satisfaction by agency tenure
- Less than 1 year: 83%
- 1 to 2 years: 75%
- 16 or more years: 71%
- 3 to 5 years: 70%
- 11 to 15 years: 68%
- 6 to 10 years: 68%

### Job satisfaction by state tenure
- Less than 1 year: 83%
- 1 to 2 years: 75%
- 16 or more years: 72%
- 3 to 5 years: 70%
- 11 to 15 years: 69%
- 6 to 10 years: 68%

### Job satisfaction by worksite location
- Greater Olympia Area: 75%
- Eastern WA: 71%
- Western WA (outside Olympia): 69%

### Job satisfaction by supervisor status
- Supervisor: 79%
- Non-supervisor: 70%
RESPONSES WITHOUT AGENCY

Some respondents who take the survey do not indicate which agency they are a part of. This may be due to a lack of trust, concern with data security or lack of a complete survey response.

63%
Job satisfaction for those that did not include agency.

2,827
Respondents did not include their agency in their response.

71%
Job satisfaction for those that did indicate agency.

Use these filters for year and agency to explore the data.
Strengths and Opportunities

2019 Statewide correlations and average scores

Correlation is a measure of how strong the relationship between the question and job satisfaction is— the higher, the better!

Top three opportunities
At my workplace, I feel valued for who I am as a person.

At my job, I have the opportunity to make good use of my skills.

I have opportunities at work to learn and grow.

Strategies to improve
- Express gratitude, invest in relationships and social capital and support employee resource groups.
- Increase freedom for tasks, provide continuous feedback and build trust between managers and employees.
- Provide training, developmental job assignments, communities of practice and goal setting.
Strengths and Opportunities

2019 agencies correlations and average scores

Correlation is a measure of how strong the relationship between the question and job satisfaction is—the higher, the better!
