90.10.70	Agencies must comply with reporting due dates	June 1, 2016	964

90.10.10 Purpose and scope of these policies

June 1, 2016

Chapter 90 establishes the state reporting policies and procedures governing the accumulation of accounting data for reporting purposes and the preparation of the state of Washington's Annual Comprehensive Financial Report (ACFR).

90.10.20 Authority for these policies

June 1, 2016

All agencies are required by [RCW 43.88.110](#) to maintain accounting records and report thereon in a manner prescribed by the Budget and Accounting Act or associated regulations. Additionally, [RCW 43.88.027](#) requires the Governor, through the Director of the Office of Financial Management (OFM), to prepare and publish within six months of the end of the fiscal year, as a matter of public record, an annual financial report that encompasses all funds and account groups of the state.

90.10.30 Applicability

June 1, 2016

This chapter is applicable to and binding on all agencies of the state of Washington, unless otherwise exempted by statute or rule. The Budget and Accounting Act ([RCW 43.88.020](#)) defines the term "agency"

State Administrative and Accounting Manual

to mean and include “every state office, officer, each institution, whether educational, correctional or other, and every department, division, board and commission, except as otherwise provided.” Agencies may request a waiver from complying with specific requirements of this chapter. Refer to [Subsection 1.10.40](#) for information on how to request a waiver.

90.10.40 Using the Agency Financial Reporting System (AFRS) - roles and responsibilities

June 1, 2019

The Agency Financial Reporting System (AFRS) functions as the statewide financial [accounting system](#). The financial data collected in AFRS is used to prepare a variety of reports including analyses for state level executive management and responses to inquiries for information from parties outside OFM. Because of the importance of financial reports in the management of state operations, it is essential that complete and accurate data be submitted to AFRS monthly.

To this end, the following roles and responsibilities have been established:

90.10.40.a

OFM is responsible for assisting agencies in complying with AFRS reporting and processing requirements.

This includes:

1. Training and consulting services regarding state policies, procedures, and regulations, as well as the processing of transactions and reporting of data in AFRS;
2. Assistance in resolving certain processing problems related to accounting and financial reporting standards, system functionality (including batch interface processing); and
3. Notification of missing or erroneous data, substantial system modifications and processing issues where possible.

90.10.40.b

Agencies are responsible for:

1. Ensuring that accurate and complete data is submitted to AFRS monthly.
2. Ensuring that they are in a position to respond to problems encountered with the integrity and/or transmission of agency data, especially during critical times such as AFRS month-end cut-off and during the fiscal year-end closing process.
3. Exercising appropriate control over data security.
4. Verifying the completeness, accuracy, and integrity of data submitted.

State Administrative and Accounting Manual

5. Notifying their assigned OFM [Statewide Accounting Consultant](#) if data or other problems arise.
6. Reviewing balances in AFRS for accuracy and completeness and, as applicable, reconciling balances to subsidiary records.

90.10.40.c

Administering agencies are responsible for:

1. Reviewing the reasonableness of the asset, liability and equity balances of the accounts that they administer.
2. Alerting their assigned OFM Budget Analyst if any fund balance issues are noted.
3. Bringing to the attention of the administering agency's OFM [Statewide Accounting Consultant](#) all other unusual activity and/or balances. Refer to [Subsection 80.10.90](#).

90.10.40.d

Agencies that use the batch interface process to submit data are responsible for:

1. Ensuring that data is transmitted in a secure and reliable manner consistent with AFRS requirements.
2. Coordinating with OFM ITS on matters regarding the transmission and processing necessary to make the data available for processing by AFRS.

90.10.50 Some agencies have component unit reporting requirements

June 1, 2016

Reporting requirements prescribe two methods for reporting component units of the state in the ACFR. Depending upon a component unit's relationship with the state, it is either blended or reported discretely.

- **Blended component units** are reported as part of the primary state government just like a normal state agency. Data for blended component units is included in AFRS.
- **Discretely reported component units** are reported in a column separate from the primary state government. Component units discretely reported need to submit audited financial statements to OFM.

The OFM [Statewide Accounting Consultant](#) assigned to agencies identified as (or having) component units will work with agency personnel to provide additional information and assistance as needed to satisfy reporting requirements. If questions exist regarding component units or potential component units, [agencies should](#) contact their assigned OFM [Statewide Accounting Consultant](#).

90.10.60 Agency prepared reports must reconcile with AFRS and the ACFR

June 1, 2016

Agencies preparing and/or publishing agency financial statements are to use data submitted to AFRS and the Disclosure Forms application for inclusion in the state's ACFR. Any variance between the final AFRS data and agency issued financial statements is to be reconciled and disclosed in the notes of the agency's financial statements. However, if the separately issued report uses different reporting standards, the agency is to clearly indicate in the notes to their financial statements which standards were used and how they differ from those used in the state's ACFR.

90.10.70 Agencies must comply with reporting due dates

June 1, 2016

Agencies are to adhere to the published due dates. This adherence allows the data to be consolidated by OFM and reported in accordance with prescribed time frames.
