Notes:

1. Unless otherwise stated all estimates beginning with the year 2011 come from the U.S. Census Bureau, Small Area Income and Poverty Estimates (SAIPE) Program, Project No. P-7502872 / Approval CBDRB. Data used in SAIPE estimates come from the annual American Community Survey (ACS). These annual estimates provide median household income measures across Washington State and its counties.
2. Money income, as defined by the Bureau of the Census, includes wage or salary income, self-employment income, interest, dividends, rental income, social security or other public assistance income, retirement, and disability income; etc. excludes employer-paid pension and medical benefits. The median measures the point at which half of all households have more income and half have less.
3. 2025 median household income estimates are derived via a smoothed ridge econometric approach.
