

Mileage Reimbursement Examples

[Daily commute is not reimbursable by the state.](#)

[All other miles driven on official state business are reimbursable.](#)

A commute is:

Travel between the employee's Official Residence (OR) and Official Station (OS)

- ✚ When the traveler's OR and OS are not the same, this would be the first and last trip **between** their OR and OS.
- ✚ When the traveler's OR and OS is the same, this would be their first and last trip **within** their OR/OS.

Normally, an employee would have one round trip commute each work day, however

- ✚ *You may not have normal commute trips in a day, or*
- ✚ *You may have more than one commute trip in a day.*

Olympia/Lacey/Tumwater: For the purposes of these travel regulations, Olympia, Tumwater and Lacey are considered to be the same official station

Commute: Travel between the official residence (OR) and other domicile of a state officer or employee and their official station (OS) or other place of work. When the travelers OR and OS is the same, then their first and last trip within their OR/OS would be considered their normal commute. Normally, an employee would only have one round trip commute each work day. However, there are some work schedules that may require an employee to commute multiple times in a day due to call back, split shifts, or on-call situations.

Official Residence: This **is not** the employee's home, but the city, town, or other location where an employee maintains their primary residence.

- ✚ If your residence is not within the city limits it is treated the same as an unincorporated location (i.e. your mailing address is Olympia, but your residence is not within the city limits).

Official Station: This **is not** the employee's office, but the city, town, or other location where an employee's office is located, or where work is performed on a permanent basis. A state official or employee's official station is to be designated by the agency. It is to be determined by the needs of the agency.

- ✚ The official station can change due to flex-place situations (i.e. Mon-Thurs, official station is Olympia and on Fri. it is Tacoma).

Temporary Duty Station (TDS): A location where an employee has been temporarily assigned to work (i.e. a taxpayer's office or training facility).

Unincorporated Location: A location that is not incorporated under state law as a city or town having legally defined limits (i.e. Northgate in King County or Spanaway in Pierce County are unincorporated locations).
